I'm a novice when it comes to oracle cards. I have many crystals and I'm quite convinced of their healing properties. I am so impressed by this deck. I've only done readings for myself but they have very accurate! So much so, this morning I asked my husband to listen to my reading. Even he was

impressed. For example, two years ago, our beloved dog passed away. Recently I have been missing her so much. One of the meanings of one of the cards I picked had to do with animals. I was so surprised when I read, "If you have been missing a beloved pet that has passed away, this crystal was chosen to let you know they are okay. (I'm paraphrasing but I was amazed!) The accuracy of these readings along with how easy they are to use has made this deck my favorite.

Although I like Crystals, I would not say that I am a crystal fanatic. I purchased these cards based on a Youtube review of the deck. The reviewer was very impressed with the cards. I purchased the cards with no real expectations. I love several things about the cards. First of all, they are colorful. The cards draw you in. The messages in the book that comes with it are very clear. I am not sure if this was intentional, but when you look at the cards you find all kind of treasures, spirit guides, angels, star beings, fairies and humans. I used these cards on my day to facilitate for a women's group and we used the cards to give each other messages, with surprising results. I love the Crystal Reading cards and plan to surprise one of my crystal loving relatives with this Christmas.

Love this deck. The pictures are beautiful and exactly what I wanted when looking for a crystal deck.

...BEAU-TI-FUL! The crystals depicted on each card are substantially sized, and are as energetically bright and bold as the real thing. The companion book concisely explains the attributes of each crystal, for easy reference. It is obvious that great effort went into creating this deck. Loved it so much that I purchased a set for my daughter. It has also prompted me to acquire a few crystals that I probably would not have thought of adding to my collection, otherwise.

These are beautiful cards. They are larger than the usual oracle/tarot deck but that's what I love about them. The pictures are beautiful. Very bright and detailed.

The box opens like a book with a hidden side magnet to hold it closed. The cards fit nicely in the hands, not too big, not too small. You could easily use this as a stand alone read or with other decks together. The rather larger than normal sized book gives a related action to the crystal, the color, related chakra, then two coinciding meanings; crystal medicine and oracle meaning, both which are very detailed and descriptive. You will not be disappointed. It's become my favorite go to crystal deck I own.

One of the best oracle decks I own (and I have a lot!) the photos are incredibly beautiful, on firm card stock, perfect size and the companion oracle book is very well written...

The cardstock is terrible! Some of the cards was completely creased on the edges (and probably that is because of cheap insert of the box, the deck wasn't hold by it ). I guess I just was unlucky to have defective deck... So I had to trim down all the cards, but now I have to buy a corner rounder tool for them....
