Grade 6 "This adaptation of Mendell's adult book *Obama: From Promise to Power* (HarperCollins, 2007) summarizes the life of Obama through March 2008, describing his upbringing, changing family, education, and political work. The text is accurate and well researched, with endnotes providing citations for each chapter. Captioned black-and-white photographs appear in a centerfold. Though the lack of an index makes this title more appropriate for reading from cover to cover than for research projects, the table of contents does allow youngsters to locate specific times in Obama's life by topic. Brief chapters and accessible vocabulary are appropriate for the intended audience, although adult assistance might be needed for total comprehension of the discussions of how politicians operate in party politics, run campaigns, and hire image-builders. These ideas may be unfamiliar to younger kids, and may need some explanation." Rendered down from Mendell's 400-plus-page *Obama: From Promise to Power* (2007), this profile will acquaint younger readers with the candidate's family background, youth, early work as a community organizer, a 2006 trip to Africa, and rise to visibility in both Illinois and in national politics. A journalist who has been covering Obama for several years, Mendell paints a positive but not entirely glowing picture, focusing (here, at least) less on Obama's specific opinions and accomplishments than on his general outlook and his developing skills in the political arena. Though illustrated with an insignificant selection of small black-and-white photos, and aside from a terse reference to the March 2008 primary results ending with his presidential candidacy announcement in February 2007, this still may have some value for its generally evenhanded view of Obama's career and character. Grades 5-8. --John Peters

OBAMA: A PROMISE OF CHANGE is an adaptation for young readers ages eight to twelve of David Mendell's *OBAMA: FROM PROMISE TO POWER*. It is a good introduction to Obama's history and should appeal to the audience for which it is written. Each chapter opens with a quotation, sometimes from Barack Obama himself, his wife Michelle ("Congratulations, Mr. Senator"), elderly Kenyan women, Obama's brother-in-law, an Obama voter et al. Mr. Mendell quotes liberally from both Mr. Obama's writings and interviews and includes photographs as well. The author briefly describes Obama's uniqueness, his father from Kenya, his mother from Hawaii and Kansas, his childhood in Indonesia, his education, how the young Barry became Barack, his community organizing in Chicago, his marriage and children, his faith, then his foray into state and national politics and his visits to Africa in straightforward language. He explains terms and events to the young reader-- the definition of a stump speech and the events of 9/11, for instance, as well as how to pronounce the word "Kibera" without being pedantic, a necessary quality for any writer trying to get the attention of young readers in this age of television and the many other distractions that keep them from picking up a book. Whether one is for Mr. Obama for president or not-- after all children do not vote anyway-- it is impossible to read this book without catching the magic of the man and believing that ours is a diverse country where all things are possible.

A very good book & an excellent gift for my mom. Thanks.

Great book."...I really enjoyed this book. The service was great and I got this book really fast. What a wonderful experience.

This book is just glorified politics of good feelings but doesn't really tell what his promise of change really will be. Sad thing people will believe this stuff and follow him into socialism.
