## Customer Reviews

LAURA MARSH has worked in children's publishing for nearly twenty years as an editor, packager, and currently as an author. She has written fourteen books in the National Geographic Kids Readers series, including Great Migrations.

My 22 month old has been fascinated by owls for the past 4 months. This book was perfect to teach her more about owls and animals in general. It has been easy to slowly work our way up- at first I just had her find and point to the owls to now we actually read the book and talk about owl facts. It is very basic compared to the other books in series 1. I have had to up my animal game since having a child and these books have been essential to brushing up on animal facts...and learning some I never knew! I have since ordered 6 more and some are better than others but my daughter has

loved them all.

Very cute book! I always purchase books for birthdays instead of cards. I bought this for a 7 year old's birthday who loves owls. I was a little worried that the reading level may be too low because it is listed as a "Level 1", but it worked perfectly! Great purchase!

anything education is good....and National Geographic puts out great stuff!

Ever since Harry Potter my students love to learn about owls this was a great book.

Bought for my granddaughter, who loves owls. She enjoyed learning more about them.

Great little book!

Grandson loved it!

Nice book
