Judith Levy is the author of several keepsake books, including Grandmother Remembers Holidays. She and her husband, Herb, were named Grandparents of the Year in 2007 for the state of Florida, where they live.

I bought my first book at Barnes and Nobles as a gift for an 85-year old woman. The family takes turns completing the pages. It's a great way to reminisce and save memories for a lifetime. This gift was so well received, both my mother and aunt wanted their own copy. Imagine my surprise when I found such a great price on . The product shipped to my home in less than 1-week good as new. Both women plan to complete the books and give as gifts for Mother's Day. I highly recommend this gift to anyone, especially someone who has everything.

This was a gift for my mom for Mother's Day. Her mom filled out a similar book, and I wanted to give

my mom the same opportunity. The quality of the book is nice. There is a lot included in the book that is interesting (wedding day, childhood, etc. that are fun to look back on for children and grandchildren). It was a great chance to record memories for herself and the rest of the family. I wish there was more space to write about these fun moments though. There are only a couple of lines for a lot of these milestones, which doesn't leave a lot of room to reflect. Despite that, I would recommend this book for mothers and grandmothers. It's probably more ideal for older moms who can write about their grown children. Either way, there is nothing cooler than having something for family to savor.

I wanted a good quality book to stand up for years to come. I received the Grandmother Remembers: A Written Heirloom in the 1980's for a Grandchild, and found it very well made and laid out very nicely. It is easy to write on good quality paper. It begins sentences and that was helpful to me. Blank pages would give more room but not provide interesting questions to prompt memories. I am buying four more today for grandchildren who are young adults now.

I purchased 2 of these for Christmas for my mom and mother-in-law to complete for my daughter. I have an older version that my grandmother did for me over the course of several years and now that she's gone, it's one of my most prized possessions. I look forward to my daughter getting to know her grandmothers through these pages.

I like it, but it could have had a few more pages to put in information.

I got 2 of them one for my granddaughter and one for my great granddaughter they are very nice books

This came in time for Christmas and appears to be just as high quality as indicated in the product description.

A wonderful book to fill out and give to my grandchildren. It definitely is a keepsake . My mother filled out one of these 20 years ago and it a treasure that my children enjoy now since she has passed away many years ago.
