Loved, loved, loved this book. It helped me introduce my daughter to all kinds of spices and foods I wouldn't have normally introduced her to on my own. I bought three other puree recipe books, but this was my go to for 6 months of purees. Thank you, Leena Saini!!!

Very excited to get this book, my husband and I are both adventurous eaters and travelers but weren't sure how to introduce different flavors (outside of our cultures) to our son. This book was perfect it was easy to follow and we actually just made bigger batches for ourselves. So far my son has had curry, garlic, turmeric and basil.à Around the World in 80 Purees: Easy Recipes for Global Baby Foodà Â I will be buying it for friends as they have kids.

Got this darling book as a gift from my husband. I LOVE it. So many great recipes/ideas. I'm really looking forward to trying everything when our little one arrives in October. :)

In a world filled with junk food and poor eating habits, Leena presents an excellent start to eating that has babies everywhere giggling and reaching for more REAL food. A must have for new parents, especially ones who love to cook healthy meals.

We will be trying many of these recipes for the whole family. It would have been nice to have more details on converting to a whole family meal such as what recipes could work together, side dishes,

etc. Also, I found the writing to be awkward in places, especially in the actual recipes. Sometimes it felt mechanically translated.
