I really really love these cards, but I give them 4 stars, which I will dwell deeper later as to why. First

off when I first opened this deck, the energy was just so peaceful and uplifting! The colors are vibrant and and the borders of the cards are so beautiful, colorful and different ! :)The illustrations on this deck is beyond gorgeous, there are some real looking people illustrations, but they aren't very creepy looking (example in energy oracle cards) and the art in this deck varies and has animals with polar bears in the card "surrender to receiving support and love" and dolphins in the card "surrender to miracles" , cards of people, cards of nature and places (such as a beautiful clocktower on the card "Surrender to divine timing" and a mysterious and mesmerizing castle in the card "surrender to silence". The art is so magical breathtaking that the artist of these cards needed a little more attention than the tiny tiny little 5 word sentence at the back of the "booklet" all the way on the bottom, and at the back of the box in tiny letters, this is one of the reasons I give these cards 4 stars and not 5, when they should have added her name on the front of the box or the book instead of what they did, seems kind of unfair!Anyway, speaking of the "booklet" itself, this deck does not come with a book like all other Hay house lifestyles decks, it honestly dissapointed me, because it's just a 9 or 10 inch piece of paper folded 3 times to get a lousy 4 or 5 pages out of it. And in this phamplet type booklet all it has is about the cards, how to use the cards and about the author and that's it. Okay so maybe these cards don't need any spreads at all, but I would have liked to see extended messages for each card, you know a more in depth meaning of every card like with all other oracle card decks, nope this deck doesn't have it except what you see on the card itself, it's nice and all but sometimes you need a more in depth meaning if you don't understand, especially with begginers and ones who don't like to rely on their intuition. But maybe this won't be a problem for anyone else. These are still very beautiful and uplifting cards, the box is sturdy, the card stock is good, and the cards even have gilded edges, the artwork is magnificent and the messages are quite decent, my only complaints have been just with the artist being mentioned in tiny letters at the back of the phamplet on the bottom and bottom back of the box instead of being mentioned somewhere where people could actually see, and that the booklet is a dissapointment, but overall I would recommend this deck.Update: I've been using these cards alot since I've got them and they have come to be one of my favorite decks, they are always pretty dead on and still bring a sense of calm and peace within me, I also no longer really care that there's no booklet with more explanations, now that I've worked with them for so long, I really don't need any explanations at all, so changing my 4 stars to 5 stars.

Beautiful cards! Clear and insightful messages. Feels like they were written with tremendous love and compassion. I am going to buy more and give them as gifts. The first 2 cards I randomly chose

were spot on as to where I am in my life right now and have very clear guidance. Thank you Judith.  
Much gratitude and love. Kieara (Karla) Brodhacker

These cards are amazing. They are so insightful! The challenging part is actually putting them into use. But once you start using them more and more often, it becomes easier to surrender and just let go.

Very thoughtfully designed and thought provoking. An excellent tool for deeper self discovery.

Love, Love, Love these cards! So inspirational and uplifting. Every time I pick one out of the deck, it seems to be the exact one needed for that moment in time. Super thankful for this creation by Dr. Orloff:)

Powerful, intuitive and easy to use. A perfect holiday gift!

Totally personal to my taste--But I'll re-gift it to a friend who would probably rate a 4 : )

I absolutely love these cards! I have had many different decks, but I have found that these cards are spot on every time I ask a question and get the answer. I also like the fact that all you need are the cards - you don't have to look up the meaning of the cards in a guide book. I definitely recommend these cards!
