An inspiring program full of essential advice for spotlight lovers and wallflowers alike that will teach listeners how to bring any crowd to its feet Every day there are moments when you must persuade, inform, and motivate others effectively. ### Customer Reviews

Working in the field of B2B professional sales, I'm amazed at how many people lack the skills to present in front of a room or get a critical point across in a virtual presentation. That's why I'm sending all of my clients Michael Port's new book, "Steal the Show" this year as a gift so they can

get more for their sales reps and other customer-facing employees. Michael has a way of teaching unforgettable lessons through stories. What's different about Steal the Show is that he showcases actual performance strategies learned through his past in acting, which has been invaluable. He has combined his extreme knowledge of business building (Book Yourself Solid) with observations of people and meshed in the art of performance to create a recipe called success. I read his previous books and have recommended them over the years - but this one - "Steal the Show" is for life lessons to get YOUR message and YOUR point across. Chapter after chapter you'll learn specific ideas and techniques to craft your message. Now you can take YOUR point of view and share it like you never have. I love how Michael includes the power of improv because the value of supporting others around you to communicate your thoughts is huge. He also stresses practice, which as a speaker I never did enough of. Not anymore. I've already started to plan my next talk using his prescribed strategy. Don't just buy this book - READ it and change the way you communicate forever. Win that deal. Gain the support for that project. Influence your kids. Make a difference. Steal the Show will teach you how.

When it comes to being successful in all of the important areas of your life from your relationships to your career and your finances to discovering your own voice, few things have more impact on all of this than your ability to speak well. I received an advance copy of Steal The Show and at first I thought it would be just another book with a big promise, but very little substance to back it up. Boy was that wrong. Instead, this book is refreshingly packed with detailed step by step instructions on exactly how anyone can become a better speaker in any setting. Right out of the gate, the author instructs readers on the oh so important concept of finding your individual voice and he illustrates how becoming a better speaker liberated one of his students from one of the most potentially scariest experiences in life. For this person, it was speaking publicly it was speaking at all. This book also teaches the reader how to craft captivating stories, move audiences to tears and make them laugh until their bulky hurts. The book also teaches us performance principles and the author demonstrates (quite convincingly) how those principals can be used in a variety of professional settings and in everyday life. For this reader, perhaps most importantly this book also teaches you what not to do which I believe for many of us is the root of our fear of speaking in public. Without reservation, I give this book my highest endorsement. Great job Michael Port! Thank you for giving me the tools to Steal The Show!
