Jesus In The House Of The Pharaohs: The Essene Revelations On The Historical Jesus

Synopsis

A provocative thesis that the historical Jesus was connected to the royal 18th dynasty of Egypt contends that Jesus, Joshua, and Tutankhamun were the same person. Provides evidence from church documentation, the Koran, the Talmud, and archaeology that the Messiah came more than a millennium before the first century C.E. Shows that Christianity evolved from Essene teachings. Although it is commonly believed that Jesus lived during the first century C.E., there is no concrete evidence to support this fact from the Roman and Jewish historians who would have been his contemporaries. The Gospel writers themselves were of a later generation, and many accounts recorded in the Old Testament and Talmudic commentary refer to the coming of the Messiah as an event that had already occurred. Using the evidence available from archaeology, the Dead Sea Scrolls, the Koran, the Talmud, and biblical sources, Ahmed Osman provides a compelling case that both Jesus and Joshua were one and the same--a belief echoed by the early Church Fathers--and that this person was likewise the pharaoh Tutankhamun, who ruled Egypt between 1361 and 1352 B.C.E. and was regarded as the spiritual son of God. Osman contends that the Essene Christians--who followed Jesus' teachings in secret after his murder--only came into the open following the execution of their prophet John the Baptist by Herod, many centuries later. Yet it was also the Essenes who, following the death of Tutankhamun and his father Akhenaten (Moses), secretly kept the monotheistic religion of Egypt alive. The Essenes believed themselves to be the people of the New Covenant established between their Lord and themselves by the Teacher of Righteousness, who was murdered by a wicked priest. The Dead Sea Scrolls support Osman's contention that this Teacher of Righteousness was in fact Jesus.

Unfortunately, the author, by his own admission, is handicapped by customs in naming, and lack of written records to prevent him from having a rock solid basis for his opinions. Never the less, my personal thoughts are, he is correct, until someone can come up with hard evidence to prove him wrong. As he states, in many comments, scribes, and others who told or transcribed the stories in the Bible made their best efforts to show what they believed to be the true story, and had to create their own fabrication to keep the story in concert with the "Christian" leaders beliefs. One glaring made up story is about the trial of Jesus. King Herod was at the least 2 days travel away from Jerusalem, and Pontius Pilate was busy with a Roman General and couldn't have been bothered. Besides the story was only a symbolic story made up to show that the Jesus personage was mistreated and killed. The real story of Jesus/Joshua/Tutankhamun had happened centuries before.

This was an excellent book. I would say though, that if you are an avid Christian, don't read it until you are spiritually ready for information that on the surface seems to be different from what you are used to in the Bible. One really has to look deep down within this information presented to appreciate it. There is quite a lot of evidence to back up Osman's seemingly outrageous claims. Look within yourself, look within history, look within religious writings through the ages to truly appreciate this writing. There is a lot of evidence, but it is really impossible to know EXACTLY what is true. When it comes to anything in history, especially ancient history, we depend on the writings and artworks and artifacts of others. We can only come to theories. But this theory presented in this book, is a good one. I highly recommend it if you are ready for this kind of information for yourself.

Very enlightening indeed.

This book is very informative. Helped me to understand to roots of monotheism and to understand

the origins of the three Abrahamic religions and the truths and beauty of the Ancient Egyptian found within them.

Like Bauval, Osman for me is stingingly convincing. Raised a Catholic, I was almost imprisoned in seminary at age 13. But something didn't feel right. Not only was I confused about the whole fire breathing God thing, I was suspicious of most of what I'd been taught. Under pressure to conform by family and church authorities I thought I was about to lose my mind. Finally, a renegade nun pulled me aside and told me I had a right to be full of doubt, and that she, too, felt trapped in a world madness. I broke free, left home by 15, and never looked back. For 48 years now I have traveled a liberation road, meeting people like Ahmed Osman along the way, and rejoicing every step of the way.

This is a book that is fun to read. Osman has a great grasp of Egyptian history. His interpretation of the historical facts is one way to view these facts, but certainly not THE ONLY way to view them. It is hard to believe that many of the Patriarchs of the old testament, and Jesus from the New Testament were all members of the ancient Egyptian royal family.

Paradigm SHATTERING . . . Incredibly convincing, thoroughly researched, exquisite presentation, this book is a must-have.

The book has great logical sequence of thoughts
