## Customer Reviews

This is a fun to do product, but mine arrived scuffed. This wasn't the fault of the seller--it was a manufacturing issue that caused each page to have some of the black coating rubbed off from each of the pages. There is a faint smell that comes with any scratch off paper, but it dissipates as you use it. Still, it's a relaxing book, and it's fun to see the mandalas' colors come into fruition as you scratch off the pattern. If you want a relaxing alternative to doodling or coloring, this one's pretty enjoyable and mindless. I don't intend to be framing these, so the flaws, while annoying, aren't relaxation-prohibitive.

A couple of the pages had a few scratches on them, but not a big deal. They are so pretty. There is a sheet of tissue paper between each page. I'm using that to put my hand on as I color so that I

don't accidentally scratch it. I bought a set of metal scrapers that come with different sizes. I would definitely recommend that rather than the wooden 1 it comes with.

I love this! Spent three days happily scratching away. Some pages do have some minor scratches, but nothing big enough to detract from the overall image.

I tried the whole coloring book trend but these are soooo much more relaxing for me. I definitely recommend!

I love this. It is so much fun and is so distracting from everything else. The tool should be plastic not wood. it wears down very easily making your lines thick and bulky.

These were so fun to do! I was introduced to Scratch-Offs last year and these were my favorite by far! So much easier to do than the Cityscapes or Landscapes ones, some of these were time-consuming but the beautiful colors and designs made it worthwhile and I loved the final result. They really were good for relaxing.

This is a very beautiful package of scratch boards. I like the fact that the color palettes vary, so you're not just seeing the same color pattern underneath. Minus one star for the stylus which is a stamped out thing with squared edges and not fun to hold. I'm surprised they wouldn't include something even slightly better like a round stick. Consequently, I bought another stylus. Other than that, a great set of challenging designs and pleasing results.

Absolutely gorgeous, just as pictured! Not a single scratch was on it, and the pictures are large and beautiful! As suggested by a buyer, I purchased Royal Brush Foil Engraving Art Scraper Tools which work perfectly! In my past experience the wood ones never work. I love it! A great relaxing buy!
