Customer Reviews

A wonderful compilation of ghost stories to be read around a campfire or near a fireplace late at night. Don't expect any scientific explanations for these manifestations. Just enjoy the stories and sit back and think. The longer you ponder these tales the more you will want to read them again.

I am currently reading this book and find the stories interesting! They are very short but some are really good and make you wonder! I am a buff of ghost stories and I've enjoyed all these so far! If you like short stories and lots of them this will work for you!

I bought this for a grandson for Christmas. He was very pleased with this book. He likes reading about ghost stories. If he is happy with it than I am happy with it, because he is very picky about what he reads.

This book is collection of 50 short stories about the paranormal some of this short stories I have heard of before but had different names I thought this is a really interesting book full of great paranormal stories I really enjoyed reading this book.

It was a good book.

I put this with my camping stuff so I can tell scary stories around a campfire. Its good.

of American hauntings as reported in contemporary accounts in the 1800s. Some are intriguing, some are disproved, some are folk tales. But they're all interesting. I would love another volume in this vein. (A keen need for better editing is why I say 4 stars instead of 5.)

I really enjoyed this book. It is interesting to see the way the news reported it. The way the stories are told makes me think of how my ancestors may have read it in the newspapers and wonder what

they may have thought about the stories.
