## Customer Reviews

I have thirty to forty books on the tarot. This is the book I seek out to give as a gift along with a deck of tarot cards. The meanings of the cards are crystal clear. I'd even recommend this book to more skilled reader. It even mentions miscarriage/abortion associated with one card. If you're just

learning the tarot, this would be the first book I'd send your way. It will make a "believer" out of you very quickly.

This book matches my original set of tarot cards, I actually bought them together. During a move the book was lost or stolen, who knows. It's a very good book explicitly explanation of each tarot card in both its positive and negative representations.

I like it

I've probably bought 6 to 8 copies of this book. Very pointed in the predictive descriptions. Short, sweet and dead-on. This is a must have if you plan to develop your tarot reading skills. This is a tarot "cookbook" that works. Quite impressive in its accuracy.

Excellent book. I have been reading tarot for years, and I still got a lot of great information from this book

I bought this because my original copy is falling apart. I love this book!

Best buy ever. Book looked brand new.

I won't go into the details of this book because there are some very good reviews already written about it.
