Interest Group Society

Synopsis

Considered the gold standard on interest group politics, this widely-used text analyzes interest groups within the intuitive framework of democratic theory, enabling readers to understand the workings of interest groups within the larger context of our political system. Comprehensive coverage includes not only the traditional farm, labor, and trade associations, but also citizen groups, public interest organizations, corporations, and public interest firms. Brief in page count yet comprehensive in coverage, the book is flexible for different class settings. The book's rich content and lean size allows it to stand alone as the centerpiece of a course, or be assigned as one of several texts.

Jeffrey M. Berry is professor of Political Science at Tufts University Clyde A. Wilcox is a professor in the Government Department at Georgetown University

At \$65.00 used for this book, it is a total rip off. The book is a paperback with 190 pages of actual study material. The contents is fundamental and could have been reduced to 100 pages for a total cost of \$15.00 . This is what's happening in the education system, students are being required to buy books that are sub-standard, and pay huge amounts of money for them because the publishers lobby the institutions to select their books.

I purchased textbooks for my son on this year. GREAT price and FAST ship to his front door. does not let you down.

The binding for this text is awful. It is very hard to keep open and read the text because of the binding. If this was a hardback book, or better quality paperback, it would be much better.

Avoid this waste of scholarship. Boring, boring, boring, boring.

This book explains how organizations attempt to influence the political system. There has been a large increase in the number of interest groups in the past three decades. The book explains the types of interest groups and why people join them. It gives a good explanation of lobbyist and the role they play in the political spectrum.

there was nothing wrong with the ordering or delivery of the book. But overall the book is very boring and there is a lot of common sense information that I did not need to pay for.

The book I ordered came before the date I expected. The book also came in perfect condition and wasn't damaged in any way. I am very pleased and satisfied with my purchase. Thank you.
