Two Powers In Heaven: Early Rabbinic Reports About Christianity And Gnosticism (Library Of Early Christianity)

Synopsis

In his now classic *Two Powers in Heaven*, Alan Segal examines rabbinic evidence about early manifestations of the "two powers" heresy within Judaism. Segal sheds light upon the development of and relationships among early Christianity, Gnosticism, and Merkabah mysticism and demonstrates that belief in the "two powers in heaven" was widespread by the first century, and may have been a catalyst for the Jewish rejection of early Christianity. An important addition to New Testament and Gnostic scholarship by this much revered scholar, Segal's *Two Powers in Heaven* is made available once again for a new generation.

Book Information

Series: Library of Early Christianity

Customer Reviews

"For any scholar seriously interested in the questions about the emergence of early Jesus-devotion, and particularly the ancient Jewish context, Segal's book remains highly important." — Larry Hurtado, Retired scholar of the New Testament and Christian Origins

Alan F. Segal (1945-2011) was Professor of Religion and Ingeborg Rennert Professor of Jewish Studies at Barnard College.

great for the money

This is a clearly written scholarly work. In other words, the context of much research and knowledge is needed to read it and understand his arguments, but it is written in a straightforward, well-organized manner. He covers rabbinical texts, gnostic texts, early Christian father letters and excerpts from the New Testament canon to work backwards through rabbinic polemics about the "two powers in heaven" heresy, searching for historical clues to tie those attacks to communities in a particular place and time. Important for the study of early Christianity, gnosticism and the rabbi movement, this book comes highly recommended for students of religious studies.

Great book!

Excellent resource and very informative. Bought this because it was reference by Michael Heiser in The Unseen Realm. I don't buy and read all references in the books I read but I do quite a bit and was glad I bought this one.

Great book. Great writer.
