The Walking Dead: The Pop-Up Book

Synopsis

Based on AMC's The Walking Dead, this blood-curdling pop-up book brings the hit TV series to life like never before. Lurking within its pages are more than twenty ingeniously crafted pop-ups that add a horrifying new dimension to the series. Experience the terror of "Bicycle Girl" reaching out with her decaying arms; the ravenous walker hordes crowding the streets of Atlanta; Michonne's deadly katana skills; and the horror of a walker feeding frenzy. Plus, go inside some of the most memorable locations from the television series and discover the battle-torn West Georgia Correctional Facility, Hershel Greene's doomed farm, and the gut-wrenching secrets of Terminus. Featuring ten pages packed with exclusive pop-up illustrations and blood-drenched action, AMC's The Walking Dead: The Pop-Up Book is a uniquely terrifying way to experience the walker apocalypse. Stephani Danelle Perry lives in Portland, Oregon, with her husband and two children. She writes horror/sci-fi/fantasy multimedia novelizations and tie-ins for love and money, dabbling in the universes of Star Trek, Aliens, Alien vs. Predator, and Resident Evil, among others.

Hey walking dead fans and pop up book collectors! If your a fan of this stuff then prepare to be Dazzled ! What we have here is like nothing you've seen before . These aren't the pop up books I grew up with . No no , this is paper art engineering of the highest order ! A brain buffet of unimaginable order ! Even Rick Grimes would wince once or twice at this blaster piece !! I've been through a lot in my lifetime (haven't we all ,) and seen many strange and wondrous sights . But I wasn't prepared for the horror , oh the horror that practically made me sleep with the house lights on , all the house lights , yikes ! This book will go down in history as absolutely the scariest pop up book ever made ! Not for the kiddies though as this will probably cause involuntary loss of bladder control for them (but hey , we've most all been there !). Please note - I recommend if you do get this great work of art , that you slowly and carefully open your new prized possession as slow as a "walker !" Because quick movement will only draw more walkers attention and may thus accidentally damage the pages . Trust me , I'm an expert . Read with the lights on full power so even Z's are easier on the eyes but if that fails go in disguise heh heh he

This is everything that was expected, Anyone who does buy the book has to be very careful with the book in turning pages and closing the book the things go back into place. As with any children's pop up books. Although this is not intended for children! The person I bought it for very much enjoyed it.

My husband is a huge TWD fan. I bought this for his birthday! The book is very well made, arrived in perfect condition. All the pop-ups work just like they're supposed to work. Overall, great book for any TWD fan. I've never seen my husband's eyes light up that way. He's a very happy birthday boy, thanks to .

Outstanding detail, a must have for the Walking Dead fan. Elaborate graphic pop ups tell the story from beginning all the way to Terminus. Great artwork with fantastically designed pull tabs. Not suitable for young children.

This book is a hilarious, but amazing piece of "paper engineering". The amount of clever folding, the art on the paper, and how it's all put together is amazing, and really inspires artistically-minded folk (and Zombie fans). Even if you're not into The Walking Dead, the sheer amount of work put into just one page of this pop-up book will make you want to learn more. The pop-up paper-engineering is intricate, but clean, and doesn't rip or tear by accident, as many pop-up books do. They are all done really well. If you've watched the series, you will see all of your favorite scenes from season 1 and 2. It's a fun book for adults and teenage kids.

The quality of this popup book is nothing less than AMAZING. The 'authors' are called 'Paper Engineers' on the cover. An apt description, the construction of this book is stunning. I was highly impressed, it was worth every penny.

I actually saw this book on Facebook and had to hunt for it. One of my best friends is in love with Zombies in general, but loves the Walking Dead. I saw this book and immediately thought of her. I did buy the book as a Christmas present, but I had to check it out for myself. Seriously, I love it. The zombies pop out and each page features different segments of the Walking Dead Series. The imagery is graphic and some of them look real. It is a well designed book and a perfect item for any fan of the Walking Dead. You will NOT regret buying this book. I almost want to buy a second one for myself.

I got this book for my husband for a Christmas gift. Of course since the book was new it was back ordered, but it arrived in time. He did love it, the book was nicely assembled, the art and pop ups were awesome looking. I liked that each pop up portrayed memorable things. This is something to keep on the coffee table for others to look at when visiting. We have had several friends play with it when over. We do though have to keep it out of kids hands.. As our toddler has almost ripped it.
