Customer Reviews

I always considered Michelin to be the most authoritative guide but the omission from their Andalucia guide of what is arguably the most spectacular Baroque church in Granada, Spain is inexcusable. Anyone who consults travelers' blogs and reads comments will immediately understand that the Iglesia de Nuestra Senora de Angustias (Our Lady of Sorrows) should be at the top of any list of sights in Granada. Michelin is not alone; the Rough Guide omitted it also, with both of them saying that they make selections rather than including every church. Does this mean that the writers who wrote about Granada churches never even entered this church? Or did they just decide it wasn't worth including? I have no idea what criteria they use but anyone who googles this church and looks at photos will immediately understand what I am saying. Both guides have notified me that they will be addressing this omission in the future.

Love it.

Decades back I used Michelin Travel guides on vacation in France. This travel guides are the best on to get orientated and very helpful to plan your trip. Compact to carry on and full with all the information you need on the road.
