Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

Very strong, waterproof map. Good details and use of color (like all National Geographic maps.) Has several nice larger pictures, though I would prefer that the space be used for detailed inset of cities. Only Jakarta has detailed inset.

It is made from a thin plastic which makes it durable, rip resistant, won't fall apart in the rain and long lasting. It is easy to read and understand. I like it. It is much better than a paper map.

Excellent map - clear annotations and convenient size.
