Customer Reviews

Mug cakes are very cute and it is indeed a great presentation when we have a party or family gatherings. This book is perfect and the recipes are very detailed which is very easy to follow. I highly recommend this book to all who wants to learn mug cake recipes.

This is a great book showing you how to make a variety of delicious mug cakes. Haven't tried any recipes yet, but they seem super easy to make. This would be great to bake with my kids, since you can just use the microwave. Love how any uneaten mug cake can be frozen to eat at a later time. Also ingredient substitutions can be made to any recipe for those with special diets. Definitely looking forward to making a mug cake soon, think I will start with the Marble Mug Cake! I received this book for free for the purpose of providing a review.

Love this book. Bought it for Christmas gift for daughter who has severe food allergies to milk, eggs, peanuts, tree nuts & shellfish. She has been using it almost everyday !!

Each recipe takes 4 to 5 minutes max to prepare and make. They're an excellent choice if you're busy and on the go. You don't have to eat them immediately, you can always bag them up for a snack throughout the day.
