JORDAN REID is the founding editor of the lifestyle blog Ramshackle Glam and the author of two parenting and style memoirs. Her hobbies include unfortunately timed blushing, coming up with reasons to not shave her legs, and darts. She lives in California with her husband and two children, mostly so that she can wear flip-flops in the winter.à ÊRIN WILLIAMS is a writer, illustrator, and semiprofessional ugly-crafter living in New York with her husband and child. She moonlights (works full time) as an Oncology Data Specialist at Flatiron Health. If she had free time, she would use it to watch crime shows and guess who the perp was with stunning accuracyà Â before the reveal.

I bought this as a gift for my preggie friend and she loved it so much, it's now on my must-give list for anyone I know, lady or mister or gender non-conformist, expecting a child. The humor is perfect -- not too wacky, but so spot-on even I was cracking up (and I am a looong way from having a child myself any time soon). I could not recommend this more, not just for those expecting, but for anyone who wants to cheer up and celebrate anyone expecting. Great find!!

I purchased this for a friend that was on bed-rest due to complications in her pregnancy. It looked like it would be something to keep her busy while laying in a hospital bed for a few weeks. I flipped through the sections prior to giving it to her. This book is hilarious and had me laughing quite a bit. She loved the book and was very thankful, as it not only had good information in it but provided

activities to keep her distracted. Mom and baby are doing well now:)

Bought this book twice for a couple pregnant friends! They got a huge kick out of it! Great book for first time moms!

This book was a fantastically fun read. It makes an excellent shower gift for any new mom. Much more useful than another baby blanket! Being pregnant and a new parent is a wild journey - if you can laugh during it - then it is all the more memorable and enjoyable. Congrats to Jordan and Erin for their perfectly fun creation!

Just bought one for my pregnant friend for Mother's Day. She is obsessed! She said she laughed out loud reading it and she was so glad to get something so funny and real to cheer her up through those waiting room moments, as opposed to another onesie her kid is just gonna barf on and then immediately grow out of. $\tilde{A}f\hat{A}$ \tilde{A} $\tilde{$

Part of a welcoming package for 1st pregnancy

This is the best present for pregnant people! You can use it as a diary and add all important facts. It is also fun to read it while not expecting a baby, since it brings up a lot of memories.

Purchased this for a young friend who is expecting. I browsed through it first. SO funny! It will drfinitely give her a chuckle.
