Jean Coppendale has been involved in children's book publishing for many years, producing, editing and writing both fiction and non-fiction, including *The Great Big Book of Mighty Machines*.

Ian Graham is the author of many children's books.

I bought this for my 5-year-old daughter to enhance her reading skills, and she had no trouble at all repeating after me thanks to the large text and simple sentences. The pictures were good and the information was accurate. It dwelled quite a bit on non-firefighting vehicles and rarely used fire vehicles; I wish it had gone into a little more depth on the different types of fire suppression vehicles, such as engines, ladders, and brush trucks.

Nice book. My son loves fire truck books.

It's an ok book. I don't regret buying it but I wouldn't recommend it to a friend. The pictures are pretty good.

I bought this book and another book called All Aboard Fire Trucks for my 3 year old son because he loves firetrucks. He loved them and loved looking at all the different kinds of vehicles. Very good book to read at nap time or bed time for your little adventurer. Very colorful and educational.

I love this book. I gave it to my four year old nephew for Christmas. It is full of great educational facts about rescue vehicles. The graphics are amazing and the words are easily commendable but not overly simplified. Would buy again for other gifts in the future.

Our future firefighter (5 year-old-grandson) really loves the big colorful pictures and simple text in this book. He "reads" it over and over again. Great way to teach about rescue heroes.

Ladder broke off first night.

my 2 year old loves it
