# Mighty Mac: The Official Picture History Of The Mackinac Bridge

## Synopsis

With a total span length of 8,344 feet from anchor block to anchor block, the Mackinac Bridge is the longest suspension bridge in the world. It surpasses the Golden Gate Bridge, the Verrazano-Narrows Bridge, and the Humber Bridge in England, even with their longer center spans. Every phase of construction of the Mackinac Bridge was photographed. The pictures in this book, selected from 3,000 black-and-white photos, document important stages of the monumental undertaking. Captions detail the procedures used during construction. The result is a volume which captures the struggles and the hardships, as well as the determination and the pride of the men who labored to build Mighty Mac.

Beautiful book, very informative, enjoying the story...I guess I thought it would have had some COLOR photos...I guess that must not have occurred until after the bridge was built.

Excellent description of the book

I've been fascinated with the Mackinac Bridge ever since I first saw it when I was a kid. I've been across it twice since then, and it's never failed to impress me as one magnificent structure.
