# On To The Next Dream

## Synopsis

Paul Madonna's popular comic, "All Over Coffee" had been running for twelve years in the San Francisco Chronicle when he was evicted from his longtime home and studio in the Mission District, ground-zero in the "tech wars" transforming the city. Suddenly finding himself yet another victim of San Francisco's overheated boomtown housing market, with its soaring prices and rampant evictions, Madonna decided to use his comic as a cathartic public platform to explore the experience, and to capture the complex, highly charged atmosphere of a city and a life being forced through a painful transition. In a series of drawings and stories, Madonna evokes the sense of vertigo induced by being forced from his home, and the roil of emotions that ensue as he enters into the city's brutal competition for a place to live. The line between reality and surreality begins to blur almost immediately, in real life and in his comic. Absurd, maddening, and all-too-poignant, these drawings and stories capture the spirit of not just San Francisco, but a cultural epidemic that has now spread to cities around the world. "For years I've been intrigued and charmed by Paul Madonna's careful and thoughtful drawings of overlooked nooks and by-ways of San Francisco. In his new book he now combines them with manic, delirious, and increasingly paranoid writings as he struggles with the all-consuming City dilemma of gentrification; of who came first, who gets to stay, which wave of usurpers is more 'real' and deserving than the next, and finally, what happens when someone decides it's your turn to go. Beautiful and engaging." Sandow Birk, visual artist "Madonna has created a kind of San Francisco Realism, details so absurd, cruel, and beautiful that they can only come from our infuriating home. If Charlie Kaufman squatted in an illegal sublet in Armistead Maupin's mind, this would be the lovely tenant." Joshua Mohr, author of *All This Life* "Paul Madonna's *On to the Next Dream* is bleak, terrifying, hilarious and lovely." MariNaomi, author and illustrator of *Turning Japanese* "Simply delightful. I really don't like much out there, I really don't, but *On to the Next Dream* I couldn't put down. It was sharp, clever, honest, and maybe the funniest book on eviction ever written." New Yorker cartoonist and New York Times bestselling author, Bob Eckstein, *Footnotes from the World's Greatest Bookstores* "Progress—that is, gentrification—marches on in San Francisco, for better and for worse, in this fantastical narrative from the creator of *All Over Coffee*. What separates *On to the Next Dream* from other stories of gentrification is the strange sense of unreality (oddly reminiscent of Norton Juster's *The Phantom Tollbooth*, of all things) that accompanies artist/writer Paul Madonna's fictionalized struggle to survive in a rapidly changing San Francisco." Deborah Krieger, *Popmatters* "Much has been written about the 'tech wars' that

have made living in San Francisco an impossible dream for old-timers and young workers. For writer and graphic artist Paul Madonna, the issue became personal when he found himself evicted from his Mission District home. Combining narrative and his distinctive graphics, *On to the Next Dream* depicts Madonna's struggle to find new digs." —Georgia Rowe, San Jose Mercury News "Paul Madonna is the author of the long running San Francisco Chronicle series, *All Over Coffee*. His new book, *On to the Next Dream*, offers an absurdist take on his eviction from his Mission District home of ten years. Absurdist, but all too real. . . . Madonna should win a unanimous vote for best book opening of 2017." —Randy Shaw, *BeyondChron* "Madonna has a new book that describes a kind of living nightmare that began when he received an eviction notice from his landlord that sent him into shock. In clean, crisp words and stark images, *On to the Next Dream* describes an emotional journey that took Madonna from anger and desperation to shame, sadness and acceptance." —Jonah Raskin,...

## Customer Reviews

I liked this book so much I'm not even going to resell it on . The author writes

about the difficulties he encounters in finding housing in San Francisco after receiving an eviction notice. His take on the effects of change in the city are not only entertaining but also thought provoking.

This is a short book of Paul Madonna's eviction experience from his long time apartment/studio. This is NOT another collection of his previous cartoon strip anthology.

Paul Madonna as always is phenomenal. If you have't picked this up please do- if you have't picked up his last works please do. Creative, tugs on your heart strings, and as always makes you think.
