Customer Reviews

I was looking for just a paleo cookbook but took this one bcz it was free. This one is good if you want to follow a daily, specific meal plan. It would also be pretty good if you are new to the paleo way, as the intro info is nice, to the point, and not too long. I hate calculating and worrying about BMI and that nonsense. It's pretty worthless, in my opinion. Who cares, bcz paleo is a way of life, NOT a "diet". Yes, one will lose weight if you're overweight. If that's the case, don't get on a scale either. Do

the deal and see and feel the dramatic changes. Period.

I want a refund. The grammar, spelling, and incomplete sentences make it so difficult to read. The recipes are quite entertaining and humorous actually because of his typos. His title is misleading and the cost of this book is nearly twice as much as any of the other Paleo diet and recipe books. If I had only spent \$1 I could of laughed it off. I wish I would have read the reviews before I purchased this calamity.

Reading this book and the recipes was a challenge if one is a good reader with an eye for spelling and grammar. The author must be using English as a second language, for there are many errors and apparently there were no editors for proof reading. As far as the Paleo diet is concerned in this book, I am afraid that I would die of boredom with repetitious foods and recipes. I think I will do some more research and reading of different sources before I write off the ideas behind the Paleo diet concept.
