Planning a Girl Scout trip with 18 teenage girls is always a challenge but this book has helped make that task a little easier! It's very easy to read and being sectioned off by main areas of interest and things to do in the surrounding area is amazing! I love that each chapter includes maps, price ranges, and places to eat, stay and play. One thing I wish it had more of was images for some of the places they recommend for visual people like myself. A great tour guide and I can't wait to take with me this summer!

Very useful for planning our trip for the summer of 2017.

Wish it would have been more detailed about the different Canyons. Spent almost half the book on Salt Lake City area which I had been too before.

The book information and contents are very good and helpful. I have ordered other Fodor's travel books and knew I would be happy with it. The reason I wanted to give my review is that the condition of the book wasn't as good as I had hoped. I paid \$10.00 for a book that I thought was close to new condition. It was in less than good condition. I don't want to go to all the trouble to send it back.

these books are ok, but leave so much out. doesn't begin to cover what was available to do in southern utah. i thought it would cover quite a bit of the national parks as they were listed on the cover, but information was really sketchy. would be really nice if it could include where dogs are

permitted and which trails they are not. will not be buying any more of these types of books.

This was a great guidebook for our trip to Utah's national parks. Restaurant ratings, hikes, & tips were all so helpful.

This is a typical Fodor guide: Hotels, restaurants, what to see.

I bought this for a recent trip to Utah, replacing a 2010 edition - a big disappointment. Actually LESS useful information than the previous edition about the Southeast corner of the state. Instead of hotel and restaurant reviews, I found '. . . for full information visit Fodors.com'. Very funny. I will view Fodors books with suspicion from now on. My 2012 Moon Handbook 'Four Corners' had much more useful details. DON'T WASTE YOUR MONEY.
