daughter in law loves it. children 7 and 2 1/2

I bought this book for my son's kindergarten class, and it was a hit! The messages are clear and interesting. At this age, their minds are like sponges, soaking up information, but can become saturated if too much. The illustrations were also very appropriate and underscored the theme of the book. Overall, this book struck a perfect balance for the 4 to 6 age group - not too wordy, great illustrations, definitely not babyish in development of theme.

My wife purchased this for her first-grade classroom. She told me she loved it.

Great book that my toddlers love reading. It briefly mentions the 5 senses, exercise, eating healthy, eating junk food, getting hurt, getting sick, cleanliness, sleeping and physical activity. It allows for discussion and elaboration, which is great and enjoyable especially with all of the colorful images.

Love the book! Talks about the wonderful our bodies do and how to keep it healthy! Perfect for preschool aged children!

it's good

Brought this for a boys and girls club to give to children to teach them about health and their bodies. They were happy.

This book shows how important healthy eating and exercise is to the body and how to take good

care of oneself and how important that is.
