Storm Clouds Rolling In (#1 In The Bregdan Chronicles Historical Fiction Romance Series)

Synopsis

Review: I expected to like this book. I did not expect to be hooked! This series is, quite simply, the best historical fiction I have ever read. I'm in love with the characters, I can't sleep because I'm too busy reading, I have learned more than I ever thought possible, and I've been inspired to become a better person. My advice to you? READ THEM! Storm Clouds Rolling In is the first book in the Bregdan Chronicles historical fiction series. As of today, there are 10 books in the series. It's readers like you who have turned the series into a world-wide best-seller. Thank you!

Book Description: Carrie Cromwell comes of age as the dark clouds of the Civil War swallow the country. Born with a fiery spirit and a strong mind, she finds herself struggling between the common wisdom of the South and the truth she has discovered. The activities of the Underground Railroad and her close friendships with the Cromwell Plantation slaves create difficult choices. But when her decisions put her at odds with her heritage, and challenge her dreams, will she be able to give up all that is precious to her?

This first book of The Bregdan Chronicles historical fiction series will pull you in and never let you go. You'll experience the Civil War era (and all the years to come) through the eyes of both White and Black, free & slave, Southern & Northern - and you'll fall in love with every character.

How many books will be in the Bregdan Chronicles? No one knows yet! Ginny intends to write these character's stories, one year at a time, for as long as she is able to write. She is passionate about bringing history to life through historical fiction. Since she is amazingly healthy, that could be for a very long time! She doesn't like stories to end any more than you do. This one won't end for a very long time!

Review: I'm an avid Gone With The Wind Fan. The movie and book...was skeptical I have to admit, but I love historical fiction so I thought at least it might be an interesting read...but...to my surprise and delight it has pulled me into the saga I longed for... I have been unable to put it down! Well written...believable characters...a real page turner!

Review: Absolutely could not put any of the books down in this series. I have read many books over the years, and never felt the compassion and talent from any author. If you get a chance to read this series, you won't be sorry. Every one of the books was written so eloquently you feel like you are in the same room with the characters. She describes each character with such depth and descriptive qualities with your mind's eye you can actually see them. I only hope there will be another book and I will be waiting to see. Thank you for taking me to a place back in history I would not have been able to experience. Again, thank you for your ability to transform and entertain me with such beautiful artistry.... So talented.

Review: I have just finished reading this, the 7th book in the Bregdan Chronicles and I have one word to describe the whole sage...MAGNIFICENT!! I am a big fan of books from the Civil War Era and this saga is without a

doubt the BEST account I have ever read of that period of time. All of the characters are developed so colorfully and realistically that I have become very attached to them. As we all know, it was a time of great upheaval in our country, and these people live this upheaval every day of their lives. It was a dangerous time as well. The horror of the war is not downplayed one bit in these books...I would have been very disappointed if it was. Ginny Dye is a genius! I can only imagine the hours and hours of research she put into these books. Her dedication shows through each one. I cannot WAIT for every book that will follow. Keep writing, Ginny!

Customer Reviews

Ginny Dye knows how to bring the Old South to life. Her character development and presentation of how life was during those days prior to the Civil War transport you to that time. For anyone who enjoys reading a great novel based on this time in America's history, this book is for you. Her idea to do this series covering one year in each book gives the reader a chance to absorb all the details in each book, and one can almost put yourself in the shoes of her characters. I have read Margaret Mitchell's "Gone with the Wind" 4 times from cover to cover, and in my opinion, this book and the

following 3 books in this series rank right up there with that masterpiece of historical fiction. I'm currently reading the 4th book in the series, "Dark Chaos", and hope Ginny will continue this story in many books to come.

This is the first book in the series. At first I was not sure that it would hold my interest but boy was I wrong! This book was so interesting and it really captures the heart of the reader. The characters are not conventional, and are flawed just like regular people. If you like historical fiction filled with love, relationships, adventure you will love this series.

I would highly recommend this novel and all the ones that follow. The Bregdan Chronicles presents the reader with a multitude of issues during a very difficult time in American History. The story is presented in such a way that the reader gets a chance to see all aspects of the issues, all through the eyes of a wonderful cast of characters. I have read all of the books that follow #1, including Ginny Dye's latest, #5 THE LAST LONG NIGHT. Instead of writing a review for each one individually, I will just say read them all!!! You will not be disappointed.

I love the Bregdan Chronicles series! The historical aspect of it is meaningful to me because of the Civil War since I live near Gettysburg and have been to some of the places mentioned in the books, such as Hampton and Sharpsburg. As the author was talking about where the war took place in Virginia, Maryland, and Pennsylvania, I could picture what the places look like now. I recommend this series to people who love historical fiction. I can't wait until Book 5 is released.

First, I've reviewed the book 2 times. Where did the others go? Now to the book. I'm enjoying this series though it does move slow and the overall development seems to begin (in my opinion) during book 3. This series is about the civil war and slavery. I find the author is able to empathetically get into the minds of all the main characters while remaining true to some of the issues of that time period and the horrors of war. I've researched some of her historical claims and found most to be accurate. I do recommend the series and I'm looking forward to the other books. I would prefer that the writing was a bit less soap opera'ish.

Basically a "be all you can, wish and are able to be" book in a Civil War setting. Doesn't use big words(existential). Even Tolkien refrained from using too many and his chief interest was linguistics in ancient English language. Good character development of Sarah. Remember this is a Civil War

romance, the bloodiest US war ever, set against America's ugliest social crime that haunts us today. Sort of like white police killing unarmed African-Americans and Trumps #@&%# immigration policies. There is adequate history for such an emotional and complicated history still being fought in many states. Thank goodness Carrie is no "I'll think about it tomorrow" Scarlett. The author leaves us with a mystery that will undoubtedly be answered in the next ten books. For me, let the mystery remain. I enjoyed the book but not nine more. Hint to the author. Leave out the page asking for feedback in the last chapter. I will adequately do this for you. If you, reader, are interested in all the blood chilling politics and complexities of this dark episode in American history try Shelby Foote's three volume history of the war. Then you won't need to get the next nine volumes of Dye's obviously well thought out historical novels. I liked her first one but I prefer 12th-14th English history and historical novels. Now there's some bloody fighting, complicated romance and down right fascinating history. Thank you Ms Dye.

Love the entire sagas! Well done and sticks to history of that whole era!! laughed out loud at the scene where Carrie grabs some clothes from an abandoned shack to give Pvt Hobbs after he was stripped of his uniform from a thuggish Slave hunter and hiding in the woods. When they rode to Richmond on Carrie's horse, they were stopped by soldiers. Pvt Hobbs looked like a clown in the clothes Carrie had grabbed at night. They both looked so funny. Carrie dressed in her Fathers clothes & Hobbs in his make-shift outfit! Loved it!

This book is the first in a series of my favorite historical novel era to read. The characters so far have come to life and are quite memorable. They definitely have become intertwined in a way that is not 100% predictable. I completed this book rather quickly and have now purchased and am almost done with the second in the series "On to Richmond" I can certainly see where readers can be addicted to the Bregdan Chronicles and eagerly await the next in the series. So far this doesn't match some of my favorite "epic" novels such as Gone with the Wind or Scarlett, the Thorn Birds, but it is still early and well on its way.
