Customer Reviews

This is based on a cheap 3 drawer plastic storage unit from Target/Walmart. Basically drill holes in the bottom of 2 of the drawers. Top drawer is for gravel/plants. Middle drawer is filter media. Bottom drawer not used. Set the whole thing in a kittie litter pan. Pump water from pan to top.Provides some information on freshwater crayfish but nothing that is not readily available on the web. Most pages have only a couple pictures on them. Save your money and just go to youtube. Glad I did not pay for the actual book and just did the Kindle download instead.

Short but excellent work for me as low budget projectThank you and have nice day mike villa five stars
