Customer Reviews

A really great assortment of recipes for the spiralizer that have been really useful for me. Easy to grasp and i have and my friends agree as well on how tasty they are. Really appreciate this resource, it was joy to use and well explained, i will keep using it in the future, i love it :))

Though the recipes are interesting, I found quite a few to be both ingredient and labor intensive considering the final output. Too many ingredients. Some steps could be saved by just using a food processor to get almost same result. Unusual ingredients that aren't usually on hand - at least not in my kitchen. This will not be a go-to cookbook for me.

Very few recipes, no photos at all, and very very cheap paper (looks like the same paper as a Big Chief tablet from 1950). The book that comes with the Veggetti slicer is sufficient.

great ways to eat healthy-easy and fun to make....

great recipes

Old book - you can probably just take your regular pasta recipes and just make the substitution.

This book is very helpful on all the different vegetables you can make a delicious meal my veggetti spiral vegetable cookbook

Boring and uninspired. Not worth the price of a Kindle edition. Recipes were repetitive. Better recipes are found in the book that came with the machine.
