Fundamentals Of Mental Health Nursing

Synopsis

In this updated edition, Kathryn Neeb continues to squarely address mental health within the scope of practical/vocational nursing, emphasizing that LPN/LVNs most commonly care for patients with psychiatric problems in general patient care settings rather than in specialized psychiatric facilities. This targeted approach, along with her accessible, friendly writing style, meets the legal licensing needs for the role of the LPN/LVN thus making Fundamentals of Mental Health Nursing the leader in the LPN educational market.

Customer Reviews

This book was great. My professor didn't use it that much for his class but the information was very interesting. It wasn't an easy read but it didn't have to be. I still refer back to this book when speaking of certain mental health issues.

Thank you for doing such a good job!

Psych not strongest area, but great reference book. all you need to know in one place

This book was part of book required for my LPN program. It have definitely served it purpose. I recommend this book for any current or future nursing students!

I got the book in a super fast timely matter. This is the text book for my mental health nursing class. It is really interesting and easy to read, study with and carry around.

Good

Got the book cheap and super fast for my LVN class!

Excelent condition
