Karen Lee Fontaine received her bachelor's degree from Valparaiso University, Valparaiso, Indiana, a nursing degree from Luthern Hospital in St. Louis, Missouri, and her master's degree in psychiatric nursing from Rush University, Chicago, Illinois. Karen is currently a Professor of Nursing at Purdue University Calumet, where she has been teaching for 20 years. She is also a certified sex therapist and maintains a private practice counseling individuals and couples. Karen's publishing awards include the AJN Book of the Year Award 2000 for her text entitled *Healing Practices: Alternative Therapies for Nursing*, Prentice Hall, and the Annual Nursing Book Review, Sigma Theta Tau 2000 for *Mental Health Nursing 4e*, Addison Wesley. Karen's distinguishing academic honors include the Luther Christman Excellence in Published Writing Award, Gamma Phi Chapter, Sigma Theta Tau, Rush University, Chicago, Illinois, in 1997 and Distinguished Lecturer 1994-1995 from Sigma Theta Tau, International. Karen is a frequent presenter at national and regional seminars covering psychiatric-mental health nursing practice, alternative therapies, sexuality, and sex therapy. She is a member of several professional associations, which include the International Society of Psychiatric-Mental Health Nurses, the National Alliance for the Mentally Ill (NAMI), and the American Association of Sex Educators, Counselors, and Therapists. Karen has also served on the Editorial Advisory Board for the *Journal of Couple and Relationship Therapy* since 2000. Karen lives on a sand dune in Miller Beach with her soul mate, Al, and their Greater Swiss Mountain dog, Whitney. She has three children, Jean-Marc, Simone and Marcel, and three grandchildren, Danielle, Christopher, and Jaycee. Karen enjoys spending time with her family, art, reading, walking on the beach, and throwing "Goddess" parties with her friends.

There are some useful diagrams and charts in the book, and the end-of-chapter questions and "focus your study" reviews are good, as is Appendix D, which goes over and explains the correct answers. The "knowledge base" sections of each chapter are decent and give a reasonable overview of the various conditions. However, the book is also quite repetitive and choppy. Breaking down illnesses by learning, behavior, cognitive, etc. theories is silly, since no one theory adequately explains each illness. I don't need to read the same assessment questions over and over in each chapter. My main objection, however, is how the author repeatedly injects her personal and political biases into the text, and she seems not to like American culture very much. It's not nearly as sexist, homophobic, or immigrant-unfriendly as she makes it out to be. I don't care what her political views

are; they have no place whatsoever in a textbook. I wish I'd rented this book instead of purchasing it. It's not good enough to keep in my library, and it's also not good enough to donate to overseas schools, which is what I usually do with textbooks I'm not going to keep. So I might just tear out the pages with useful charts, etc. and recycle it.

Great book. Helped me get my RN license.

I actually really like how this book is set up. Made it easier to read. Pretty straightforward book.

This book was required by my college, it was pretty decent and readable and not confusing. The book arrived quickly and I feel that I benefitted tremendously by renting it. The price was great for the time it was given.

Met expectations of what was described in seller's paragraph. Have no complaints.

this book is a great mental health book. its very easy to read and understand. i highly recommend it. ;)

Very good book. Information is broken down so its easy to understand. Its a great book for nursing students taking mental health course and want to truly understand what your reading.

Book is in excellent condition and as describes.
