US Navy Seal Combat Manual

Synopsis

This formerly top-secret special warfare manual is one of the rarest -- and most informative FMs in existence. It is an inside look at the equipment, weapons and tactics employed by US Navy SEALs. Topics include weapons, covert intelligence-gathering diving, infiltration and exfiltration, and underwater demolition techniques. Hundreds of photos, charts and diagrams highlight this rare find.

very great manual for those interested in these times we are in today ;on protecting one's self & leadership in units

This is a reproduced older version of the manual. It is only OK. If you want something that gives you an idea of what a Frogman is trained it is worth the money but it is not what I had expected.

Yes i owened this manual before, it either got lost or stolen in the move to my new house.I know the contents of it very well
