Do Not buy this book! Not only is it very poorly made, recipes spill onto multiple pages that then break into another recipe with no warning, no nutritional info, serving size info or pictures. Even if I could get past this the book is neither Keto no Paleo, most recipes call for forms of sugar which are not at all Keto, and they also call for dairy and peanuts which are not paleo. Please do not waste your time with this one.

This is one of the best books about eating routine that I saw on are altogether composed plainly and acculturate diet has changed my life. I have so much more energy and feel so clear-headed that it's really like a whole new world. I picked up this book because it is intended for beginners. I would definitely recommend this book to anyone wanting to start eating paleo or who wants to add more recipes to their diet.

now this one's for me. i believe more to this as the author's arguments are convincing. he has suggested practical ways i could do together with the diet to make weight loss achievable!

This book is really amazing and useful book. I just love this book. It's really super. Highly recommended. Boost to buy it

Good information about Paleo diet. Good tips and recipes to get you started for the first four weeks. This book is great. Easy to read, easy to understand, very helpful, has the recipes with pictures, it even has the grocery list per week. Amazing! I'm looking forward of trying this diet.
