Customer Reviews

Based on "The Railway Series by the REV. W. AWDRY A is for All Aboard! Filled with fun photographs from the popular TV show, Shining Time Station, "Thomas's ABC Book will delight children while teaching them the alphabet along the way.

I've been really disappointed with the quality of a paperback copy. The paper and printing looks extremely low quality - I'd imagine my home printer would do a much better job of printing it out. The content also didn't impress at all - the pictures and the letters match are not satisfactory, low quality images, low quality texts. The little Thomas's fan enjoyed it anyway though - that's why 2 stars instead of 1.

I am certainly happy that I bought the library edition of this book. When presented to our little one,

his eyes lit up and with such enthusiasm and surprise his little fingers went over the pictures with the discovery as it indeed appeared just as it does on tv. This has become a favorite already. While I would have liked to see the pages of the book with a more quality thicker stock, the colorations are wonderful and even tho not a heavy paper it appears to be woven well. All the favorite trains are featured and it is a happy time!

I was extremely disappointed when I received this book. The photos are poorly printed. It looks like I made it myself, except for my printer would have looked nicer.

This book is cute. It is in the older claymation Thomas style. I was excited to use this for my thomas obsessed two year old who is learning his letters, but I was pretty annoyed about their use of the letter X. Instead of coming up with a word that actually begins with the letter X, they chose to use "eXpress" to represent the letter X. This does not teach a child correctly, and I'm sure there is some word they could've come up with that actually begins with X.

some words do not start with the letter ..pics look like it I copy image from internet and print it in poor quality printer

The cover picture made me think this would be full of bright illustrations and the "new" Thomas and crew. However the illustrations seem to be snapshots from the old version of the show, and the colors are very muted. My son still enjoys it, I was just underwhelmed. Was not what I was expecting.

I'm giving two stars because the prices so cheap. However, it looks like it was printed from someone's home printer because the print quality was so poor. Not to mention your kid can rip it apart in no time. Go find a hardback version...

grandson loves the book
