Taking this read very slowly to learn the best info about archangels. Doreen Virtue is a trusted expert in this field and her style of writing is informative and yet simple so you can cover lots of ground in a short amount of time. Thank you Ms Virtue for your contribution to our knowledge base of these beings that exist to help us here on earth!

After waiting for four months on a federal job to repost, I called upon Michael and Gabriel for assistance. Keep in mind there is a federal job hiring freeze. The very next morning I received an

email that the job was reposted. Thus I started reading everything I could on archangels ... This is the first book I've read on the subject. This book is well written, informative, and gives examples how that particular angel can help. I'd recommend this book to anyone who wants to broaden their understanding of angels.

Definitely a book that should be bought in paperback or hardcover. The kindle version, which I bought first, has no illustrations and is devoid of much of the soul of this gorgeous book. I also recommend the audiobook. It has led to some lovely manifestations and a nice healing of my lower back. A perfect companion for a nice epsom salt bath. :-)

Finally a book that focuses on just the top angels. When I read it a calm comes over me and I feel connected to each archangel. I don't care much for the true stories of how the angels performed miracles or answer simple prayers because I know they do those things and I'd rather it be of prayers and info about each one but that's my opinion. Anyways great book for anyone trying to create a spiritual angelic relationship with archangels. I already have had miracles happen in my life since reading. Trust me you will get that angelic calm come over you while reading this!

This is a great basic, easy to understand book about Archangels. Who they are, what they do. Their specialties and personalities. Simple information that can be life changing in the simplest of ways. A quick read. Underline a lot. It makes it easier to find what you want.

I'm amazed at so many glowing reviews for this book. I couldn't believe how basic and simple it is. Most of the information is taken directly from her website. There are just a few pages on each archangel with examples like how an archangel helped someone remember someone's name or find a library book. Nothing miraculous. I'm actually a fan of Doreen Virtues, but this was really too simple to be called a book. I really did enjoy her Archangels and Ascended Masters book, so if you're interested buy that book instead. If you have it already, you will most likely be disappointed in this.

I love this book. I often re-read chapters. It's taught me so much about working with the angels and I've become a happier, more spiritual person. Don't be skeptical. Angels are among us and wanting to help.

SO SO GRATEFUL! My son hurt his leg-there was a very large bruise on his knee. With his permission we prayed to God and Archangel Raphael for healing. About 36 hours later the large bruise was completely gone! We both laughed because we knew!!! Bruises of that size don't just disappear in that short of time! Definitely Divine! ÆfÂ Æ Å,Ã â ™Ã â œ
