This is a great book on Sicily Travel Guide. All of the things, tips and guides that I need to know about Traveling, activities, sightseeing, food and wine are already included and well written inside. Alex Pitt has done an incredible awesome job in compiling and creating this book. Also the unique part of this book is the compilations of the "Adrenaline and laid-back activities & Food guide, foodie activities and best restaurants in Sicily". Very informative, useful and well explained. This book is really a great resource for those who want to learn more about Sicily Travel Guide.

Impressive! I probably have a half-dozen guides to Sicily but this is the one that will go with me! This little book is packed with the best information I've found anywhere. It describes places that none of the other books have mentioned such as tiny fishing villages. It's up to date, lists restaurants, and is written in a very personal tone, as though one friend is telling another about an upcoming trip and what not to miss. Very informative and good reading. Highly recommended!

I have a trip planned to Sicily this summer and was looking for a different kind of guide and found exactly what I was looking for in Alex Pitt's Sicily Travel Guide. I know where to stay, what to look at and most importantly what to eat. I especially enjoyed the food explanation at the end and the suggestion of wineries to go wine tasting. Really looking forward to this trip, even more so now after getting great insight from this guide.

Great guidebook! Looking out to this book I really wanted to travel in Sicily. I was planning to visit my friend there by next year and I'm glad that I got this book for free. The pictures are great as well and the beautiful spots or places looks more interesting and I want to try their food. It looks really great and delicious. Fortunately I'm lucky that I have this book. This could be very helpful and useful to me when I go to Sicily next year. Well written and easy to read. Recommended!

Excellent, useful guidebook for travelers to Sicily. Provides a nice combination of what-to-see-and-do along with historical and cultural background. This book will put your doubts of whether going to Sicily is worth it. Would recommend for anyone desiring to go to Sicily on vacation for pleasure or any other reason. Great reference for finding day trips. Well organized, interesting, and easy to navigate.

This very insightful and at times personal account will provide the generalist or the scholar a marvelous insight into the strategic significance and rich cultural patrimony of this unique community, which has been at different epochs a frontier, cultural hub, bread basket, province and backwater. Norwich's style is engaging, and your brain swells from the knowledge he pours into it.

No doubt that this book will put your doubts of whether going to Sicily is worth it or not. The magical Italian island has a lot to offer for holiday visitors in terms of activities, food, wine, sightseeing and more. Plan your holiday with this clever extensive Sicilian travel guide is what you should expect from this book like what I did.

excellent guide, but don't expect colored pictures, very few pics. That would just make the book bigger to carry around LOL, so do your research for pictures on Google images and you'll be fine. Rick Steves recommends this book for Sicily since he hasn't written one, so that's why we got it, was very helpful.
