Nephrology In 30 Days (In Thirty Days Series)

Synopsis

A fast, innovative way to learn the core principles and clinical entities associated with nephrology at the point of care! A Doody's Core Title for 2015! Nephrology in 30 Days enables you to quickly and easily attain a complete understanding of the basics of nephrology, allowing you to successfully diagnose and manage kidney disease and its associated complications. Designed to impart this knowledge in just thirty days, this unique self-instructional tool is perfect for medical students, physician assistants, medical residents, and nephrology fellows rotating on the clinical nephrology service elective. Now in full color, Nephrology in 30 Days is the most effective way to gain a solid understanding of acute and chronic kidney diseases, disturbances of fluid and electrolyte balance, and disorders of acid-base and mineral metabolism homeostasis--in the least amount of time possible. Updated to include the latest research and advances, including:

- New formulas for estimating glomerular filtration rate
- The role of WNK kinases in distal tubular sodium and potassium handling
- Revised hyponatremia guidelines
- The use of vaptans for clinical use
- Newly reported forms of metabolic acidosis
- The role FGF-23 and Klotho play in phosphorus homeostasis
- Concerns about the use of erythropoietic stimulating agents
- Approaches to and classification of both chronic kidney disease and acute kidney injury
- Discussion of urinalysis and urine microscopy in the evaluation of kidney disease
- New forms of tubulointerstitial disease such as immunoglobulin G4 (IgG4)-related disease
- The pathological classification of systemic lupus nephritis and other glomerular diseases
- The mechanisms and causes of essential and secondary forms of hypertension

Customer Reviews

Robert Reilly, MD Professor Medicine UT Southwestern School of Medicine Dallas, TX Mark Perazella, MD Professor of Medicine Yale University School of Medicine New Haven, CT

This book covers a good amount of information, specially for the internist and general practitioner, for a nephrologist more comprehensive texts would be needed but to start I do recommend it.

Everything was great

Excellent

Perfect

Nice purchase!

This bread product is by far the best bread product I have ever owned! As a former Chef, kitchen tools are very important to me. I have an extensive collection of products and am always looking for the best tools. This is not only an excellent bread product, at a good price but a beautiful design and feels great in my hand. It is sharp and effective. I am so happy with it I bought two and have put it on my gift giving list for years to come. If you enjoy great kitchen tools this product should not be missed! fine. fast and in time. for my family , great, and very happy.
