Mind Control: MK-Ultra, Project Artichoke, And The Jonestown Cult

Synopsis

Throughout the agency's history at the CIA, multiple mind-manipulation and mind control tests have been performed against unwitting citizens, military soldiers, and even their own personnel. With Project Artichoke, the infamous MK-Ultra, and the Jonestown experiment - the CIA shows its true colors - and they sure as hell aren't "red, white, and blue."

Wow! Did I just read that. What our they CIA & company doing to us. Share this with those who need to know.

There's a lot of material in here that's just way, way above my pay grade and I have not researched SOME of what is claimed but I get the gut feeling I need to pass on this publication for addition eyes because THERE ARE major portions in this work I've been reading as of late that [I have validated]. If this is just way too much for you and your going to roll your eyes and go with the

conspiracy wing nut idea, no problem but I will point out that I just downloaded the official Senate Select Committee on Intelligence regarding The Torture Report: Committee Study of the Central Intelligence Agency's Detention and Interrogation Program: Executive Summary, Findings and Conclusions. The short of the report from congress tells you in specific detail that the CIA's program blew it and it did it in a "big bad chicken dinner kind of way" and the specific proof can be found in chapter 5 of the 9/11 commission report. Recommend review of the author Philip Marshall for additional details. Bottom line, I'm no expert and it would be foolish for you to assume what I have to point out is the truth, so I most strongly remind you to take anything I present with extreme prejudices until you do your own homework."Paranormal experiments under STARGATE continued until 1984, and Army doctors were actively involved in LSD testing at least until the late 1970's. Still-classified CIA mind control programs were operational at least into the early 1970's. Subjects of LSD experiments included children as young as five years old, and brain electrodes were implanted in children as young as eleven years of age. Four of the CIA's MKULTRA Subprojects were on children, a fact that has not been publicly documented before."Ross M.D., Colin A. (2011-10-01). The CIA Doctors: Human Rights Violations By American Psychiatrists (Kindle Locations 475-479). Greenleaf Book Group Press. Kindle Edition. My specific reason for promoting this work is because there is material in this publication that presents reasonable justification for you to understand and or to ask what a State Crime is and how it might affect the quality of your life, or that of your love ones. You will not get this on the evening news, nor will it be the talk of the office on Monday Morning until we start to "draw that line in the sand". Its nasty stuff and it will jack your mind up because of the potentials this all presents. Do I believe it all? I don't know but I am very clearly aware that we need more open discussion about the state of our country and that of our personal rights as human beings. Plus, I think we all know that there is the official claimed whatever mass media wants to tell you that day and then there's a completely different set of facts when you follow up. My personal readings reveal that you don't have to believe anything at all, but rather recognize a lack of awareness creates disassociation for all of us. Additionally, there's a differences between belief and knowing for a fact."American is probably the most propagandized country on earth...Our countrymen have been systematically dumbed down, distracted and demoralized by our own government and its willing minions in the media and throughout much of academia. Here in the US. The dark arts of thought control have been elevated to a level of sophistication almost undreamed by the Nazis and the Soviets". One issue, the use of Wikipedia is junk until you can follow up on that material too, even then recognize the info is specifically controlled as my personal experience has revealed this observation. The book started off pretty shaky at first when I came across the author's use of it, but was minimal compared to the other sources eventually presented. Additionally, it is short, but to the point as noted elsewhere.
Edited: Reading this one now: While supposedly in Rio, Jones may have traveled to other countries, but this cannot be confirmed. What can be confirmed is that he had left the US with two passports; #0111788 and #22898751. For the rest of his public career, he was very proud of the photo he displayed in his office of himself, his wife, and a man who looked remarkably like Fidel Castro. Since Castro never left Cuba, Jones must have traveled there. Allow me to digress for a moment. Castro is not who we are duped into believing he is. Concentrate on reality, not rhetoric. The CIA trained Castro as an actor in Hollywood. He even appeared as an extra in a few movies. We sent him back to Cuba to overthrow Batista, after which he visited Washington D.C. to meet with then Vice President Richard Nixon for a top secret strategy session. After their meeting, in April of 1959, Nixon sent a confidential memorandum to the CIA, the State Department, and the White House that claimed Castro was a communist and should be treated accordingly. It was not Castro who told the world that he was a communist, it was "Tricky Dick" Nixon. Castro then proceeded to "supposedly" turned on us. What he really did was give the US access to Soviet military technology. In exchange, we gathered up all his militant enemies and sent them into a suicide mission called the Bay of Pigs Invasion.

This book had a lot of interesting information. I am totally interested in this topic and this book was extremely helpful. Thanks!!

Every one needs to open their eyes and read this book, so you know what is happening in your world, and who is in control.

Eye opening, provocative and enlightening.

Educate yourselves with this topic. It was a quick read and has a lot of supporting sources on the MKUltra trials...

This information is always interesting. It's super short and to the point. Perfect for someone who needs a quick intro to what is going wrong with the entire world. Should be handed out like tracks. Wake up world!

This is a pile of nonsense. There are parts of it which anyone who has access to google can learn about. But the other parts are unsubstantiated and loony conspiracy theory. Extraordinary claims require extraordinary proof. It makes the former without supplying the later. For example it claims that the government has infected the world's population with aerosol clouds of nano machines which are inhaled into the sinus cavities of billions of people. These nano machines control people's minds. It offers no evidence of this and many other wild claims. It's almost like a paranoid schizophrenic had written it. I'm sure there must be better accounts of the government's mind-control programs available.
