The Commitment: Love, Sex, Marriage, And My Family

Synopsis

In a time when much of the country sees red whenever the subject of gay marriage comes up, Dan Savage-outspoken author of the column Savage Love-makes it personal. Dan Savage's mother wants him to get married. His boyfriend, Terry, says "no thanks" because he doesn't want to act like a straight person. Their six-year-old son, D.J., says his two dads aren't "allowed" to get married but that he'd like to come to the reception and eat cake. Throw into the mix Dan's straight siblings, whose varied choices form a microcosm of how Americans are approaching marriage these days, and you get a rollicking family memoir that will have everyone-gay or straight, right or left, single or married-howling with laughter and rethinking their notions of marriage and all it entails.

#975 in Books > Biographies & Memoirs > Professionals & Academics > Journalists #1065
in Books > Gay & Lesbian > Nonfiction > LGBT Studies

Customer Reviews

I'll admit to being a big Dan Savage fan. He is consistently open-minded, balanced and incredibly insightful even when presented with truly unexpected topics. His writing is wickedly funny and insightful as he tells the story of his shockingly traditional non-traditional family life and his growing appreciation for marriage. Terry is a lucky man and DJ is a lucky boy, this is quite a family. This will not disappoint.

I appreciate Dan Savage a lot. He takes difficult topics that we take for granted as being easy every day-- like relationships. I appreciate how open and honest Dan is about his own life in sharing his philosophies. What I like most is that I walk away from his writing feeling human, humble and

strongly lobbying in favor of.) The "will they or won't they" makes the latter half of the book a delightful page-turner, with clever touches that make the book especially memorable. Highly recommended. Also a perfect gift for anyone you feel needs an education on the subject.

I think it was an earlier book by Mr. Savage that I described as "you'll laugh, you'll cry, you'll blow milk out your nose..." but I'd like to use that line again. Savage is a damn good writer -- ironic, witty, smart, funny, tender, acerbic and eerily moralistic for a man living with another man and writing about sex for a living. Oh well, it's the contradictions that give him depth. He makes much of the fact that, of his siblings, he's the most traditional. His brothers and sister chide him that, in his family, he's the most prudish among them. And he makes fun of himself because, in his own family of boyfriend and son, he's the stereotypically gay one who cries at weddings and light romantic comedies. What a sap. Much of the book of course is a meditation on marriage -- a rather recent (12th Century) invention of the Church designed to bind parishioners to their parish -- and why being denied that silly piece of paper makes it seem so much more seductive. Savage takes predictable jabs at the illogic of so-called "Defense of Marriage" legislation... at adoption forms with spaces for "mother" and for "father"... and at the current administration for packaging their Calvinistic fear of hedonism as a "family value." But he also writes clearly and concisely about the nature of love, the dignity of commitment and the importance of having defensible values in this crazy world. In the end when you're writing a memoir (as Savage has done 3 times now) it's important to come off as "likable" because otherwise nobody is going to give a poop what you think or feel. To Savage's credit, I have long considered him one of my closest friends even though we've never formally met.

Not my favorite Savage book, but worth reading after you finish "The Kid". I enjoyed the scenes with his mother on vacation after her "triple" margaritas. I also loved the ones pertaining to his cross-country trip with his spouse and son (worrying about getting bashed for seeming effeminate while walking a little dog--both sad and funny to imagine someone trying to "butch" it up in this situation). There were several memorable scenes now that I think about it. I did laugh aloud at this book, as I do with all writings by this author. Oh, and keep reading after "the end".

Personally love anything written by Savage, but this book provides fantastic, comical insight into the modern gay-family dynamic and all considerations that come with the mature gay couple. As a mid-twenties gay male, I'm having my parents read this book in effort to get them into a similar frame of reference when it comes to marriage (whether you agree with Savage or not) and what it

means to be a modern mature gay male and not a stereotypical city-boy.
