Thomas Olivri is an old-styled geek, who grew up with the Game boy and the Sega Megadrive. He quickly develops a passion for graphic design and illustration and discovers that thousands of artists from all over the world are paying tribute to their childhood heroes through their art. Video games, comic books, cult movies, TV shows, nothing is left aside! Master and Commander of his blog, <http://www.geek-art.net/>, he highlights the artworks that glorifies these geekdom's heroes. A fitting tribute to this new kind of pop culture!

If you love nerd art, pick this up. I own the first two volumes and the 3rd has not made to an English version yet

Love the books. Needs to be padded as the book was moving about in its package in transit and was a little smashed on the edges.

Great book!
