Erica Meltzer has worked as a tutor, test-prep writer, and blogger since 2007. This book is extremely helpful, and I would absolutely recommend it to anyone preparing for the SAT! Erica explains each grammar rule succinctly and clearly with ample examples to solidify your understanding. I studied this book everyday for a month, and it helped me raise my writing score from the mid 600s to 800 on the SAT! A must have!

Erica Meltzer has the ability to put her instruction into student--and teacher--friendly terms. It has been helpful to me, and I am an old-school, diagram the sentences, grammarian. Many younger teachers did not grow up in schools that presented the clear and detailed grammar lessons that I grew up experiencing, so I think it would be a great reference for them. Students will probably understand more about grammar than they ever have before, especially if their background has been shaky in this area. Well-done!

Meltzer could have done better with this one. I would like to have seen more SAT style practice questions for specific skills.

I really couldn't ask for a better grammar book. The author conveys the information in a clear and concise fashion, so it allows for greatly efficient study time.

The goddess of the SAT; if she were able to get a dollar for every student I've pushed her book on, she'd be a millionaire. She BRINGS IT!!!!

Definitely recommend this! I studied for two weeks from this and went from a 670 to 800 on the SAT writing.

Very useful to really get to know the problem types. The SAT is a game and this book prepares you very well.

If you need more practices or helps other than the official guide, this is a good book for you
