Patrick H. O'Neil is Professor of Politics and Government at the University of Puget Sound in Tacoma, Washington. He received his Ph.D. in Political Science from Indiana University.

Professor O'Neil's teaching and research interests are in the areas of authoritarianism and democratization. His past research focused on Eastern Europe, and his current research deals with the Middle East, particularly Iran. His publications include *Revolution from Within: The Hungarian Socialist Worker's Party* "Reform Circles" and the *Collapse of Communism and Communicating Democracy: The Media and Political Transitions* (editor).

Required companion textbook to *Cases in Comparative Politics*, these are great books for this subject.

Rented for a class and it is actually very helpful. I recommend getting your own copy since all the material would stick better had I taken notes in the book itself.

It's a textbook. You learn stuff from it. I would rate it five stars but I'm not a major in politics so I didn't love the fact that I needed this, but it's exactly like the description.

This is a great, entry level, book for learning comparative politics. The author does a great job of explaining terms and systems in a way that anyone can understand, not just political science scholars.

This book was in perfect condition. Additionally, there were plenty of included resources that I used within the textbook, most notably the clear and concise glossary with terms and ideas. It was a definite factor in my success in my Comparative Politics course.

great

Book for school seems to be pretty good.

It's so hard to review a book when you have to buy it for a class. It was a good book and easy to understand. It covered a wide amount of information.
