MasteringAstronomy With Pearson EText -- Standalone Access Card -- For The Cosmic Perspective (8th Edition)

Synopsis

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. **NOTE:** Make sure to use the dashes shown on the Access Card Code when entering the code. Student can use the URL and phone number below to help answer their questions: <http://247pearsoned.custhelp.com/app/home> 800-677-6337 Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. 0134110978 / 9780134110974 MasteringAstronomy with Pearson eText -- Standalone Access Card -- for The Cosmic Perspective, 8/e Package consists of: 0134080548 / 9780134080543 MasteringAstronomy Content -- Access Card Package Sales Accumulator -- for The Cosmic Perspective, 8/e 0134085949 / 9780134085944 MasteringAstronomy -- Pearson eText 2.0 Upgrade -- for The Cosmic Perspective, 8/e

Book Information

Series: Mastering Astronomy

Printed Access Code: 832 pages

Publisher: Pearson; 8 edition (January 25, 2016)

Language: English

ISBN-10: 0134110978

ISBN-13: 978-0134110974

Product Dimensions: 6 x 9 inches

Shipping Weight: 1.9 ounces (View shipping rates and policies)

Average Customer Review: 4.2 out of 5 stars 3 customer reviews

Best Sellers Rank: #59,792 in Books (See Top 100 in Books) #80 in Books > Textbooks > Science & Mathematics > Astronomy & Astrophysics #156 in Books > Science & Math >

Customer Reviews

Jeffrey O. Bennett's academic home is the University of Colorado at Boulder, where he has been teaching on and off since 1983 and from which he received his Ph.D. in Astrophysics in 1987. During this time, he's taught more than 50 college courses in subjects including mathematics, astronomy, physics, environmental science, and science education. He began work on *Using and Understanding Mathematics* because he is particularly interested in helping students overcome difficulties with mathematics. For similar reasons, he has recently completed a textbook for introductory astronomy (*The Cosmic Perspective*, with M. Donahue, N. Schneider, and G.M. Voit, Addison Wesley Longman, 1999). He is also working on several books about mathematics and science for the general public. In addition, he is now working on science books for children. Jeff is perhaps best known for his role in creating the Voyage Scale Model Solar System on the National Mall in Washington, DC (opening October 2001); he proposed the project and worked on the team that developed it as a collaborative effort between the Challenger Center for Space Science Education, the Smithsonian Institution, and NASA. When not working, he enjoys participating in masters swimming and hiking the trails of Boulder, Colorado, with his family. William L. Briggs has been on the mathematics faculty at the University of Colorado at Denver for 17 years. He teaches throughout the undergraduate and graduate curriculum with a special interest in teaching mathematical modeling as it applies to problems in biology and medicine. He developed the quantitative reasoning course for liberal arts students at CU-Denver supported by the textbook "*Using and Understanding Mathematics*," which he co-authored with Jeff Bennett. He has written two other tutorial monographs, "*The Multigrid Tutorial*" and "*The DFT: An Owner's Manual for the Discrete Fourier Transform*," He is a University of Colorado President's Teaching Scholar, an Outstanding Teacher awardee of the Rocky Mountain Section of the MAA, and the recipient of a Fulbright Fellowship to Ireland. Bill lives with his wife, Julie, his daughter, Katie, and two dogs, Midnight and Seamus, in Boulder, Colorado. He loves to bake bread, as well as run trails and rock climb in the mountains near his home. Voit is an astronomer at the Space Telescope Science Institute.

I got what I paid for, but note to buyer: this is only the access code and ebook- no physical textbook(:

For the price and only 1 year the book should have been included. I have an old edition and glad I kept it. For \$178 I will no be buying the update. So sad as this is a great resource.

Good read
