# My Very First Book Of Food

## Synopsis

Feast your eyes on the latest split-page board books from Eric Carle. In the sumptuous My Very First Book of Food, children can match each animal with the food it eats. Do you know what a squirrel eats? How about a seal? In My Very First Book of Motion, children can match each animal with the way it moves. Which animal hops? Which one waddles? Only you can match them. These fun books are full of bright animals, and are lots of fun for young children.

Age Range: 1 - 3 years

Board book: 18 pages

Publisher: Philomel Books (June 21, 2007)

Language: English

ISBN-10: 0399247475

ISBN-13: 978-0399247477

Product Dimensions: 5 x 0.5 x 7 inches

Shipping Weight: 7 ounces (View shipping rates and policies)

Average Customer Review: 4.2 out of 5 stars 30 customer reviews

Best Sellers Rank: #8,368 in Books (See Top 100 in Books) #12 in Books > Children's Books > Children's Cookbooks #207 in Books > Children's Books > Early Learning > Basic Concepts #590 in Books > Children's Books > Animals

## Customer Reviews

Eric Carle is acclaimed and beloved as the creator of brilliantly illustrated and innovatively designed picture books for very young children. His best-known work, *The Very Hungry Caterpillar*, has eaten its way into the hearts of literally millions of children all over the world and has been translated into more than 25 languages and sold over twelve million copies. Since the *Caterpillar* was published in 1969, Eric Carle has illustrated more than sixty books, many best sellers, most of which he also wrote. Born in Syracuse, New York, in 1929, Eric Carle moved with his parents to Germany when he was six years old; he was educated there, and graduated from the prestigious art school, the Akademie der bildenden Künste, in Stuttgart. But his dream was always to return to America, the land of his happiest childhood memories. So, in 1952, with a fine portfolio in hand and forty dollars in his pocket, he arrived in New York. Soon he found a job as a graphic designer in the promotion department of *The New York Times*. Later, he was the art director of an advertising agency for many years. One day, respected educator and author, Bill Martin Jr, called to ask Carle to illustrate a

story he had written. Martin's eye had been caught by a striking picture of a red lobster that Carle had created for an advertisement. *Brown Bear, Brown Bear, What Do You See?* was the result of their collaboration. It is still a favorite with children everywhere. This was the beginning of Eric Carle's true career. Soon Carle was writing his own stories, too. His first wholly original book was *1,2,3 to the Zoo*, followed soon afterward by the celebrated classic, *The Very Hungry Caterpillar*. Eric Carle's art is distinctive and instantly recognizable. His art work is created in collage technique, using hand-painted papers, which he cuts and layers to form bright and cheerful images. Many of his books have an added dimension - die-cut pages, twinkling lights as in *The Very Lonely Firefly*, even the lifelike sound of a cricket's song as in *The Very Quiet Cricket* - giving them a playful quality: a toy that can be read, a book that can be touched. Children also enjoy working in collage and many send him pictures they have made themselves, inspired by his illustrations. He receives hundreds of letters each week from his young admirers. The secret of Eric Carle's books' appeal lies in his intuitive understanding of and respect for children, who sense in him instinctively someone who shares their most cherished thoughts and emotions. The themes of his stories are usually drawn from his extensive knowledge and love of nature - an interest shared by most small children. Besides being beautiful and entertaining, his books always offer the child the opportunity to learn something about the world around them. It is his concern for children, for their feelings and their inquisitiveness, for their creativity and their intellectual growth that, in addition to his beautiful artwork, makes the reading of his books such a stimulating and lasting experience. Carle says: "With many of my books I attempt to bridge the gap between the home and school. To me home represents, or should represent; warmth, security, toys, holding hands, being held. School is a strange and new place for a child. Will it be a happy place? There are new people, a teacher, classmates - will they be friendly? I believe the passage from home to school is the second biggest trauma of childhood; the first is, of course, being born. Indeed, in both cases we leave a place of warmth and protection for one that is unknown. The unknown often brings fear with it. In my books I try to counteract this fear, to replace it with a positive message. I believe that children are naturally creative and eager to learn. I want to show them that learning is really both fascinating and fun." Eric Carle has two grown-up children, a son and a daughter. With his wife Barbara, he lives in Northampton, Massachusetts. The Carles spend their summers in the nearby Berkshire hills. copyright © 2000 by Penguin Group (USA) Books for Young Readers. All rights reserved. I thought this was a story book. Eric Carle normally writes clever stories for kids, but this is more of a flash card book at best. You match up the animal with the food they eat, i.e. bear eats honey; bunny eats carrot. I find it boring and my toddler doesn't know what to do with it. If you like Eric Carle go with The 10 Rubber Duckies or Brown Bear Brown Bear.

A little tricky for smaller hands (the pages are split horizontally) and younger minds (I am an educator) and I think these concepts are better suited for 4-5yos but many buy board books for younger kids. If you like Eric Carle books for the stories- this isn't for you. If you like Eric Carle for the illustrations this MIGHT be for you.

Will be fun for my son when he's a bit older and starts talking. At 4 months old, he's not too interested yet. But he likes looking at the pictures.

My toddler loves matching up the foods with the animals! It's such a cute concept, and makes for lots of fun reading!

Gave this book as a gift never having read it before. I thought it was a book about food. I didn't know it was a book about food for animals. I read it with my friend's 3 year old daughter and we couldn't figure it out-- you were supposed to match to food to the animal by flipping the bottom half of the page but it was confusing-- do horses eat carrots or apples? Who eats grass? Where is the education in this because I think horses eat carrots and apples and grass? Anyway, I really wanted a book about food for kids.

This is a matching book where you match food an animal eats with a picture. I should have read more carefully because I thought it would just be pictures of every day food. Also, it is stereotypical food animals eat, (i.e. Elephants eating peanuts, rabbits eating carrots, cats eating milk) which many of those animals actually don't really eat. So, not what I really wanted.

We love food and we love Eric Carle

VERY confusing book for toddler AND any adult
