As a long time Doctor Who fan, of course I Love It! It has been highly entertaining for the family to figure out which fairy tale these are VERY loosely based on, and entertaining to see which species and fictional races are incorporated into each tale. The first tale in the book remains my favorite!

I love anything and everything Doctor Who, especially this read. It is a nice mix of stories and couldn't get enough of it. Only issue was the book condition, the corners and edges were worn,

doesn't seem in new condition. Received a second one almost in same shape, but the inside of book is good wasn't affected.

This book is amazing! It only took me a couple of days to read as I couldn't put it down! As for the company, they were great! I actually didn't receive the first book they sent out, but they promptly sent out another one for me. They were very nice and so helpful! I would definitely buy from them again! The book is hardcover and of very good quality, with nice thick pages. The only thing I was disappointed with was that there weren't more stories! But then, there can never be enough stories for me!

My 10 year old likes Dr. Who and devoured this book. He used it for a school book report and actually enjoyed his homework.

I enjoyed the stories I have read so far

This is a lovely book, everything you want it to be. The book's appearance is much better than I expected, it looks great!

Best children's story book EVER! It's like Grimm's stories meet Doctor Who! We brought it on a road trip and it was the perfect distraction for my kids when they got tired but didn't want to sleep.

Classic fairy tales, with a Doctor Who twist. Not all feature our Doctor, or any of the known companions. Many are just a retelling in a fun new way. I enjoyed this book tremendously!
