Materials (Designs In Science)

Synopsis

This innovative and richly illustrated set is designed expressly to stimulate young minds through an integrated approach to science. Designs in Science explains concepts in the physical sciences by linking them to principles in the biological sciences, thus highlighting the similarities between designs in modern technology and designs in the natural world. Each volume is an active learning tool that contains: -- Clearly defined key terms-- Full-color photographs and drawings throughout each section that enhance the comparisons between nature and technology and illustrate the principles discussed in the text-- Amazing facts and stimulating questions that encourage young people to move outside of the text and explore these principles at work in the world around them-- Easy-to-execute experiments that offer a hands-on way for students to verify the principles discussed. This volume introduces readers to a wide range of materials and the various ways they are put to use by humans and other living organisms.

Book Information

Series: Designs in Science

Hardcover: 48 pages

Publisher: Facts on File (February 1, 1994)

Language: English

ISBN-10: 0816029857

ISBN-13: 978-0816029853

Product Dimensions: 11.7 x 8.9 x 0.4 inches

Shipping Weight: 1 pounds

Average Customer Review: Be the first to review this item

Best Sellers Rank: #3,142,662 in Books (See Top 100 in Books) #34 in [Books > Children's Books > Education & Reference > Science Studies > Engineering](#) #30714 in [Books > Children's Books > Science, Nature & How It Works](#)

Age Range: 9 and up

Grade Level: 4 and up
