Beautiful and wonderful to be able to color in my own planner.

I only gave this 4 stars because the paper quality is very poor. Do not use gel pens or press hard or color will come through. Otherwise, the book is a delight.

The date book is beautiful and I can't wait to start coloring in it. The back cover was damaged slightly in shipping but not enough to send back or even take a star away.

I purchased this book last year and loved it. Although I am happy with the pictures, the paper is not a good quality.

I have (and have enjoyed) the 2016-2017 16 month coloring planner so I was excited to find that

another one would be produced for 2017-2018. I ordered this as soon as the pre-purchase option became available. Now I wish I had waited to see it in person before purchasing. The drawings are wonderful, of course. There is a nice assortment of drawings from Johanna's various books, so you get a lot of variety in this planner, which is great. The disappointment lies in the selection of paper used for this planner. The drawings and calendar printing are very visible through the pages and that is quite distracting. I compared the pages in this planner to the pages in last year's planner and there is a world of difference in how easily you can see through the pages in this one. This wasn't a problem in last year's planner. I'll keep the book and use it for my planner next year, but I doubt I'll be coloring in it much. The translucency of the pages is too distracting for me. I won't be ordering another one for the 2018-2019 year (if they become available) without seeing the paper in one first. If having the images visible through the pages isn't an issue for you, then you might very well enjoy the planner because the pictures are great. Also of note, the pages in last year's planner were white. The pages in this new planner are more of a yellowish, like some of her books. Not an issue for me, but worth noting for those that prefer one type over the other. Not sure why the publisher had to change the paper for this one. Had I seen this planner in person before purchasing, I would not have bought it.

As an avid Johanna Basford fan and owner of all of her published coloring books, I was very excited about this 16-month calendar - until it arrived. The quality of this calendar is nowhere near the quality of her coloring books. The cover is thin and flexible; about as heavy as card stock, and it does not look or feel as if it will hold up to much use. With the separate, brown, paper title band, laminating the cover is out of the question, unless the title band is removed or permanently bonded to the cover. I had planned to carry this in my handbag in order to have both a calendar and coloring book close at hand, but doubt that I will carry this around due to the lack of durability. The pages are also much thinner than the pages used in her coloring books. I used gel pens (multiple brands) and found that shadowing is severe enough to show through on the back of the page, even though I color with a very light hand. Very disappointing, since the back of every coloring page is a calendar page designed to be written on. Personally, I find writing on top of shadowing to be a not-so-nice experience. On the up side, my favorite feature of this calendar is the blending of several of Johanna Basford's books/best designs into a single version. The spiral binding is also a nice feature, as the calendar can be opened and folded back on itself for full coloring access. Recommend, but don't expect great quality.

I purchased this calendar when it first came out but just started coloring in it this weekend and love it. There is a little bleed through with gel pens but you can still write on the pages of the calendar. I love Johanna Basford's books. I have all her coloring books and three of her calendars. Last year the pages of the calendar were thicker but gel pens still bled through and so they do this year. It is not enough for me to stop using them on this calendar. It is not that bad of a situation. Color pencils would be the best option for this calendar but they are not my favorite. I would not recommend any type of markers because they would bleed through too much. That is pretty much true with any paper I have used. I would recommend this calendar for anyone who likes to color. It is fun,

I love Johanna Basford's drawings. This is not my favorite book. The paper is not as thick as I would have liked. I won't use this book as a weekly planner because ink will bleed through the paper. This is nice when you want something small to color. The designs come from all of her books. There are no drawings that are original to the calendar.
