Gr 4â6â In her second middle grade novel (*One for the Murphys*, 2012), Mullaly Hunt again paints a nuanced portrayal of a sensitive, smart girl struggling with circumstances beyond her control. Ally is great at math, and her ability to visualize moving pictures makes her an amazing artist, but she has a terrible secret: reading is almost impossible for her. By using her wits and adopting a troublemaking persona, she's been able to avoid anyone finding out a truth she is deeply ashamed of, but a new teacher at school seems to see right through the defenses she's built. While Ally struggles to accept the help that Mr. Daniels offers, she also deals with a father deployed in the Middle East, crushing loneliness, and an authentically awful set of mean girls at school. Ally's raw pain and depression are vividly rendered, while the diverse supporting cast feels fully developed. As the perceptive teacher who finally offers the diagnosis of dyslexia, Mr. Daniels is an inspirational educator whose warmth radiates off the page. Best of all, Mullaly Hunt eschews the unrealistic feel-good ending for one with hard work and small changes. Ally's journey is heartwarming but refreshingly devoid of schmaltz.â Elisabeth Gattullo Marrocolla, Darien Library, CT --This text refers to the Library Binding edition.

When I met Ally at the beginning of the story, I immediately wanted to help her and that feeling grew through the story. I felt thankful that she met a teacher who could see her potential and help her with her challenges. *FISH IN A TREE* by Lynda Mullaly Hunt is one of those books that makes me sad to finish it. I want to stay in touch with the characters and see where life takes them. I highly recommend this story for children 4th grade through middle school. Boys and girls will enjoy getting to know the characters.

I LOVE this book! I read it myself on the day it was released and I have now read it to two of my 4th grade classes. Both classes loved the book and could relate so well to all the characters. They were both sad when we finished the book and wanted more. Those kids who struggle with reading and writing are especially sympathetic to Ally. This book also complements our growth mindset lessons as well as our literary lessons about changes a character makes over time. We're anxiously awaiting the announcement of a new book by Lynda Mullaly Hunt!!

I myself haven't read this yet, but my nine-year-old almost 10 son couldn't put the book down. He finished it in two days and told me how much she loved it and looks forward to the next book mentioned in the back. Mind you, this is a kid that really hasn't liked to read up until recently.

What a fabulous and realistic story! Too often behavior is mistakenly labeled as poor or bad.

Children are motivated by something and as a future educator, I hope that I am half as good as Mr. Daniels! Reading is possible!

Great story about finding yourself/having people in your corner when you're "different". As a teacher, I also really enjoyed how supportive this teacher was to all of his students!

So...VERY...GOOD! I just finished this as a read-aloud to my 8-year-old 2nd grader over spring break. She and I both loved it. Don't waste a second pro and conning this purchase. It's a fun book with memorable characters that packs a great message. You can't do better.

This is a delightful story! The characters portrayed seem real because they are real. This is an absolute MUST for teachers and for anyone who loves OR hates to read.

Read together with my 10 yr old. This book has a great message we both very much enjoyed. Will make you laugh and at times want to cry. Highly recommend for kids starting at grade 3.
