Building Better Families

Synopsis

For more than a decade, Matthew Kelly has been traveling the world inspiring people to become the-best-version-of-themselves. During this time he has been amazed at how regularly he is asked: How do I encourage my children to embrace this message? How does your message apply to a family? Now, for the first time, Kelly shares with us remarkable insights and sensible everyday strategies for transforming the family into what it should be: a place where each of us can become the-best-version-of-ourselves. In *Building Better Families*, Kelly explores important issues by raising evocative questions: What makes a successful parent? Do you realize that your children are in the middle of a cultural war? What are the five things children really need? Are you asking your children the right questions? What are you teaching your children about work, money, food, exercise, body image, and sex? What are the priorities of your family culture? Allow this book of classic wisdom and practical insight to help you build a better family, and raise amazing children!

Matthew Kelly is the New York Times bestselling author of *The Rhythm of Life* and twenty other books that have been published in more than twenty-five languages and have sold more than 15 million copies.

I have read many of Mathew Kelly's books. His mantra of becoming the best version of ourselves always hits home. In this book he explains how as we and our society can always strive for the betterment of our families and society. As a father of 10 I did appreciate some of the tips and challenges he set in this book, for myself and for my family, to become just a little bit better. Very refreshing.

Grandparents, you know all the advice you give your children and you are not sure they are listening ? Give them this book. This is a great book for raising all grandchildren and not just the amazing ones. The messages and directions are simple, similar to *Rhythm of Life* which is an earlier book by Matthew Kelly (and should also be shared with your children, especially the CD version, because we all know they don't have time to read.) The ability for all of us to share messages of love and affection and caring, the approach to valuing time, the need to develop sincerity, and the need to show parental love as a real emotion and not an abstract, not a throw away remark to justify doing something unpleasant, are well laid out and solidly applied. The goals espoused are all attainable with some reprioritization and focus. They do not require joining a commune, adopting holistic practices, or removing all wheat based products from your diet. The book is an easy read for grandparents who will find themselves shouting out "yes", and crying out "listen to this" and wanting immediately to jump up and hug them all, big and small, toddler and teenager, and, yes, their parents. Maybe they will even start going to church.

This book is one that you'll read and read again. be prepared to self reflect and make positive changes for yourself and your family. I highly recommend!

This is excellently written for entire family. As grandmother I am reading parts of it out loud to daughter and her son (my grandson) as the three of us live together. The author portrays his earnest desire for all of us to have peace and understanding in our homes, and each of us to be treated with the love and respect we deserve. He has practical ways to apply living the Christ-like life. We are not Catholics, but this is for all faiths interested in better relationships within your families.

Great Book, this book is a must have for parents raising families. Well written and contains deep wisdom and practical guidance about relationships.

Recommended for man who wants to be a family man. I didn't know that as a parent we need to invest lots of time to teach our kids about finance, respect, trust and build our own culture in the family. This book really opens my eyes as a man, it really different from what my dad teaches my in the past.

This product is for any parent out there interested in raising children successfully in this very scary and backwards world! By success, I mean "children that are happy, healthy, and know who they are both as persons and as members of their family". Besides being a great buy, it's also a GREAT GIFT! That came from the family that I purchased this CD set for. =-) If you ever get a chance to hear the speaker in person, I highly recommend it!

Matthew Kelly is a brilliant man and writer. Practical, logical truths that hold through the test of time and experience. Always encouraging people and families to be the-best-version-of-themselves. Great parenting tips that we all knew, but need reminding...be honest, set an example, have a vision/direction to lead your children, etc.
