The Night Voyage: A Magical Adventure And Coloring Book (Time Adult Coloring Books)

Synopsis

This third adult coloring book in Daria Song's Time series follows the little girl on a new nighttime adventure when the conductor of her toy train comes to life and helps her distribute gifts across the world. The Night Voyage is an evocatively illustrated story of a little girl who is swept away on the eve of her birthday by her toy train conductor on a magical journey to distribute gifts around the globe. Taking devotees of The Time Garden and The Time Chamber on an imaginative new adventure, The Night Voyage continues Daria Song's wildly successful series with the beautifully intricate art that her fans have come to love, featuring a world of paper cranes, penny-farthing bicycles, trolleys, cityscapes, and hot air balloon-filled skies.

DARIA SONG is an author and artist with a master's degree in fiber arts from the Ewha Womans University Graduate School of Fine Arts. Winner of the Kyung Hyang Arts Contest, Song has exhibited at numerous galleries and museums in Korea, Singapore, Turkey, and Hong Kong. She is a lecturer at the Kaywon School of Arts and her illustrations can be found in Amore Pacific and SK Planet. She spent five years of her childhood in San Francisco before returning to Korea, and the sense of wonder and mystery that comes from living in a far-off place inspired her internationally best-selling adult coloring books, The Time Garden and The Time Chamber.

I was so looking forward to this coloring book that I also purchased the version printed in Thailand.

While I like things about both versions, for me, the US version is the clear winner. Why? Simply put it has more designs to color. I'll go into some of the differences at toward the end of this review.

"The Night Voyage" is the story of a young girl and her cat, Phoebe, who go on a night adventure giving away presents to others. Or did they? That is the question left unanswered at the end of this story.

The coloring book is filled with Daria Song's beautiful artwork and imaginative design concepts. From paper crane airplanes to old-fashioned bicycles to gorgeous air balloons, each page is a wonderful opportunity to color. In addition to the 64 pages of designs, there are thumbnails of each and a bonus coloring page as well as a card that can be cut out and colored. (with both cutting lines and folding line included.) This is what I experienced while coloring in this book and testing the page with my coloring medium. In the comments section below, I will list the coloring medium I use for testing and coloring.

64 pages of Daria Song designs plus bonus page and card

Printed on both sides of the page

Paper is bright white, very lightly rough, heavyweight and non-perforated

Binding is both glued and sewn

not the type that is easy to snip threads to remove pages. I don't recommend this as so many of the designs spread across two pages

Designs merge into the binding area

Most designs spread across two pages

Separate dust cover which has coloring opportunities on the inside and an attached cover which can be colored as well.

Alcohol-based markers bleed through this paper

Water-based markers, gel pens and India ink pens do not bleed through and do not leave shadows on the back of the page. Some gel pens require additional drying time.

Colored pencils worked very well with this paper. I tested oil and wax based pencils. I was able to get good pigment lay down with both types. Layering the same color for deeper color, multiple colors and blending with a blending stick worked well and easily.

US versus Thailand printing:

Both versions have their advantages. The Thailand version was printed on a slightly off white when compared to the US one (thought I originally thought of it was simply white.) It also had colored images and colored cards included with some single page versions of designs which were on two-pages spreads. You can see my review and video of this version from May of this year on [under the name "The Present" by Daria Song.](#)

For me, the US version was the better of the two but I am happy that I have both. The US version is printed on bright white paper that was able to take all but alcohol-based markers without showing through. There are many pages of designs not included in the Thailand version at all. The detached dust cover, which is different from the original two books by Ms. Song, was a nice new touch with coloring opportunities as well. While the books are approximately the same size and the US version actually has less pages overall, it weighs more which leads me to believe that the paper is thicker.

I promise, I did not bend this book nor did I turn it inside of itself but, the first 3-pages came loose within 4-days of using this book. I am really disappointed as I had colored heavily on 4-pages and got them to the point where I was pleased with them. Opening the book on day 5 and having the pages come loose was so not cool at all. I will tape them in and have a binder for books that do this. The book is my favorite of the 3 released thus-far and this is a big disappointment because it had not happened to the other books, just this one. Like others have said and as some have demonstrated in pictures, the images are really stunning. I would purchase again and may need to because of the loose page issue. I just cannot figure out how to prevent this as I had used the book lying flat.

If you want the best I MEAN BESTTTT!!! Color book out there.. Here it is.. It has advanced drawn pictures that will take you hours to finish. The paper is high quality and can withstand most coloring pencils, water color pencils and also water color in pots and liquids. It can take some markers but not the Spectrum noir markers. Those bleed through the paper. I have had good luck with the Crayola metal markers and no bleed though. There are sooo many pages in here, that if you color every day it will still take you months to finish. Most of the drawn images are in two page fold outs and alot of trees (my favourite) and also ariel views and just so many little details! Hope you enjoy. I was so happy when i saw sitting on my doorstep.. :) THANK YOU DARIA SONG!! This is by the way, her best book yet! I have all of them.

I would give this lovely coloring book five stars if it were not printed to the very edges of the pages. That makes coloring the edges difficult, and elements in the binding side are impossible to completely color (many of the scenes are two-page spreads). Trying to color into the crease ends up breaking the back and loosening the pages. The pictures are whimsical, very detailed, and definitely not the type that can be colored in a few minutes. The paper quality is excellent for colored pencils. I find that I get the best results with pencils that are of a little firmer texture. The book has a fairly heavy card type cover and a dust jacket over that. The pictures are of a dream adventure, so don't expect consistency from page to page in what the little girl is wearing or how her hair is styled!

OMG....This coloring book is wonderful from the beautiful pictures to the beautiful cover of the book; then you get a bonus,a poster thats what i call it.I own over 50 coloring books and this is in my top three....Im hoping you have other coloring books out on the market...Now i have to go

investagate..lolGod you do some wonderful art work.

This is such a cute book! I loved the time Garden that i bought two copies at the store and colored them BOTH. I might get another copy in fact. But this one is even better. I like the cat. And i like the message. The little girl who had a gazillion presents, wanted to share them with others. If you want to teach sharing, this is a good way to do it. Daria is such a great artist and writer. I hope she makes more!
