Very nice book-great service Thank you

We know Paris, and Rome, and London, through postcards. Postcards are of course ideal views. This book goes way beyond that. This book has a massive number of plates, must be over 500, that

are the best of the best. This had to have been a labor of love, for a couple of decades. I've been to Nantucket, but wow, I had no idea there was so much beauty there. This is better than the usual coffee table book, it's a model of what a book on this kind of subject should look like. This is the kind of book one would treasure, for years.

Robert Gambee does an exceptional job of portraying Nantucket from a multitude of angles. He manages to capture Nantucket as Nantucket, being someone who is intimately familiar with the place (spending several decades summering "on island"), not as some outsider just looking for the most beautiful views (which he still manages to find, mind you). This will make a memorable, beautiful, and informative addition to your coffee table or bookcase.

This guy must be a professional photographer. His other books on Nantucket are pure art, images that reflect the perfection of the time they were taken. There must be a good 500 plates in this book, and every one of them inspires a sense of peace. A Chinese Landscape Painting is fascinating stuff, and the author must be familiar with that tradition. This is fantastically good stuff.
