Manipulation Of The Spine, Thorax And Pelvis: With Access To [Www.spinethoraxpelvis.com](http://www.spinethoraxpelvis.com), 4e

Synopsis

Now in its fourth edition *Manipulation of the Spine, Thorax and Pelvis* continues to support the practitioner in acquiring and refining their skills on safely using high-velocity low-amplitude (HVLA) thrust techniques. This trusted and highly visual resource - now with 275 images and access to a website with 56 technique videos - advocates an approach that uses minimal leverage to achieve a cavitation in a safe, comfortable and effective manner. The new edition addresses the important issues surrounding patient consent and discusses safety issues in the broader context of relative risk. New sections include appropriate use of manipulation when treating radiculopathy and musculoskeletal conditions in pregnant women and children. It also further encourages the practitioner to reflect on how they are performing manipulative techniques and thus focus on improving their skills. Step-by-step coverage of 41 commonly used manipulation (HVLA) thrust techniques supported by 275 photographs/drawings and 56 videos. Concise technique summaries provide an innovative review process. A troubleshooting section in which difficulties with technique application can be addressed. Comprehensive review of spinal kinematics and spinal positioning for manipulation techniques. Examines evidence relating to cavitation and the clinical effectiveness of spinal manipulation. Access to companion website - www.spinethoraxpelvis.com - containing: video bank of 56 videos (13 new) demonstrating HVLA thrust techniques from Part B of the book; image bank of all 275 images from the book; 2-colour throughout with over 30 new images. Clinical history, presentation and examination for patients presenting with cervical artery dissection. Addresses the important issues surrounding patient consent. Additional research and guidelines that support the: use of HVLA thrust techniques; use of spinal manipulation in the treatment of radiculopathy, pregnant women and children.

Book Information

Hardcover: 330 pages

Publisher: Elsevier; 4 edition (November 7, 2016)

Professor Philip Tehan Adjunct Associate Professor School of Biomedical and Health Sciences Victoria University Australia
Adjunct Associate Professor Department of Rehabilitation Sciences College of Allied Health Sciences Oklahoma University Health Science Center USA

This is a book to have for reference. However, to make spinal adjustment, formal training is still needed.

Clear instructions on the techniques.
